Assistant Commissioner
KVS(RO) Varanasi***

***Dr Shalini Dixit,
Assistant Commissioner
KVS(RO) Varanasi***

Principal's Note

- We are proud to share the e-newsletter of our vidyalaya covers the efforts and accomplishments of our students. The Kendriya Vidyalaya Sangathan (KVS) uses experiential learning, which helps students connect theoretical knowledge with practical, real-world situations. This approach encourages students to explore, experiment with, and apply their knowledge in practical contexts. BaLA incorporates ideas such as activity-based learning, child friendliness, and inclusive education for children. It's about maximizing the educational value of a built space.

Learning by Doing

Better Learning Environment

Student's Corner

Library is a hospital for the mind

An original idea that can't be too good. The library must be full of them.

One best book is equal to hundred good friends but one good friend is equal to a library.

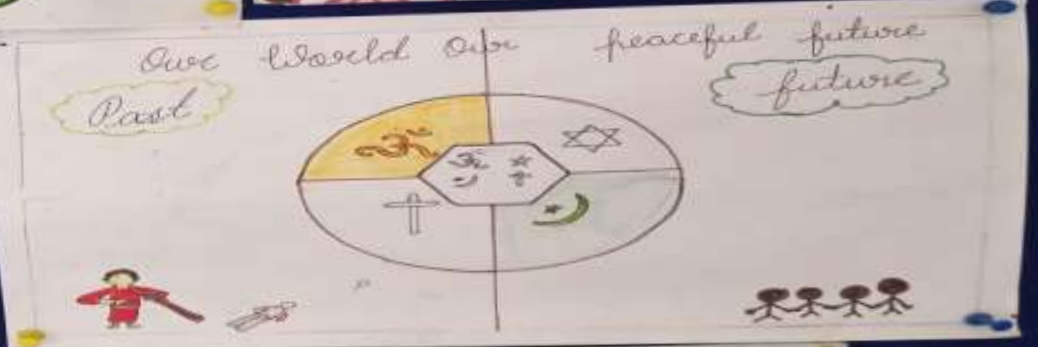

A home without books is like a tree without birds.

Always keep a library.

Book

Environment is our basic need we should not waste it for our greed.

How to Motivate Children to Learn

THANK YOU
