| S.N. | QUESTIONS | MARKS |
|------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|
| 1 | Sohan and Mohan are partners sharing profits and losses in the ratio of 2:3 with the capitals of 5,00,000 and 6,00,000 respectively. On 1st January 2022, Sohan and Mohan granted loans of 20,000 and 10,000 respectively to the firm. Determine the amount of loss to be borne by each partner for the year ended 31st March 2022 if the loss before interest for the year amounted to ₹2,500. a) Share of Loss Sohan-1,250 Mohan -₹1,250 b) Share of Loss Sohan-₹ 1,000 Mohan -₹1,500 c) Share of Loss Sohan 820 Mohan-₹1,230 d) Share of Loss Sohan-1,180 Mohan-1,770 | 1 |
| 2 | Given below are two statements, one labelled as Assertion (A) and the other labelled as Reason (R) Assertion (A): Rent paid to partner is shown in P & L Appropriation A/c. Reason (R): Rent paid to partner is a charge against the profits. In the context of the above statements, which one of the following is correct? (A) (A) is correct, but (R) is wrong. (B) Both (A) and (R) are correct. (C) (A) is wrong, but (R) is correct. (D) Both (A) and (R) are wrong. | 1 |
| 3 | How much interest will be charged on drawings of 6000 half yearly at the end of each half year if rate on interest on drawings is 6% p.a. however partnership deed is silent regarding any kind of interest? (A) 720 (B) 360 (C) 180 (D) NIL | 1 |
| 4 | A partner withdrew Rs. 4,000 per month in the beginning of every month and interest on drawings was calculated as Rs. 1,560 at the end of accounting year 31st March 2025. What is the rate of interest on drawings charged? a) 6% p.a. b) 8% p.a. c) 10% p.a. d) 12% p.a | 1 |
| 5 | Given below are two statements, one labelled as Assertion (A) and the other labelled as Reason (R) Assertion (A): Transfer to reserves is shown in P & L Appropriation A/c. Reason (R): Reserves are not a charge against the profits. In the context of the above statements, which one of the following is correct? (A) (A) is correct, but (R) is wrong. (B) Both (A) and (R) are correct and R is the correct explanation of A (C) (A) is wrong, but (R) is correct. (D) Both (A) and (R) are wrong. | 1 |
| 6 | A partnership firm earned divisible profit of 5,00,000, interest on capital is to be provided to partner is 3,00,000, interest on loan taken from partner is 50,000 and profit -sharing ratio of partners is 5:3. Sequence the following in correct way: 1. Distribute profits between partners 2. Charge interest on loan to Profit and Loss A/c 3. Calculate the net profit Transfer to Profit and Loss appropriation A/C. 4. Provide interest on capital | 1 |

| | A. 1 - 2 - 3 - 4 B. 2 - 3 - 4 - 2 C. 2 - 3 - 4 - 1 D. 3 - 1 - 4 - 2 | |
|----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---|
| 7 | <p>V and M were partners in a firm sharing profits and losses in the ratio of 5:3. Their capitals were Rs.6,00,000 and Rs.3,00,000 respectively. They were entitled to interest on capital @ 10 %. The firm earned profit of Rs.75,000 during the year .The interest on V capital will be</p> <p>(a) 50,000 (b) 60,000 (c) 30,000 (d) 25,000</p> | 1 |
| 8 | <p>Anmol & Yashraj are partners Sharing profits in the ratio of 3:2. Capital account showed balance of ₹1,50,000 and ₹2,00,000 respectively on 1st April 2024 Firm earned a net profit of ₹74,050. Layout of Partnership Deed Interest on Capital @8% p.a., Interest on Drawings Yashraj ₹2400 and Anmol ₹250. Partners have withdrawn amount on different dates. Anmol is entitled to get a Salary ₹1200 p.m. for three quarters. Yashraj is entitled to get a commission @10% . During the year firms record an surplus sale of ₹4,50,000 for which an extra commission @1% each the partners will get. Accounting year ends 31st March every year. Prepare Profit & Loss appropriation Account.</p> | 3 |
| 9 | <p>Read the following information carefully and answer the questions that follow: A and B are partners in 3:2. Their capital balances as on 1st April 2024 amounting to 2,00,000 each. On 1st February, 2025, A contributed an additional capital of 1,00,000. Following are the terms of deed:</p> <p>a) Interest on capital @ 6% per annum b) Interest on drawings @ 8% per annum c) Salary to A 1500 per month d) Commission to B @10% on net profit after charging interest on capital, salary and his commission. Drawings of the partners were 20,000 and 30,000 respectively during the year. Net profit earned by the firm was 2,08,000. Choose the correct option based on the above information:</p> <p>Q1. What is the amount of Interest on capitals of A and B: a) 12,000 each b) 12,000 to A and 13,000 to B c) 13,000 to A and 12,000 to B d) None of the above.</p> <p>Q2. What is the amount of interest on drawings of A and B: a) 1200 and 1800 respectively b) 800 and 1200 respectively c) 1200 and 800 respectively d) 1600 and 2400 respectively</p> <p>Q3. What is the amount of commission payable to B? a) 15000 b) 16500 c) 20800 d) None of these</p> <p>Q4. What is A's share in the net divisible profit? a) 124400 b) 83600 c) 91200 d) 60800</p> | 4 |
| 10 | <p>A and B are partners sharing profit and loss in the ratio 50%:50% and contributed fixed capital of 2,00,000 each and B having current balance of 20000. Accumulated profit 50000 Goodwill in the books 20,000. Partnership deed provides Salary to A 12,000 p.a B's commission 5000 Partnership firms only runs for six months. Firms earned a net profit 25,000. Prepare Partners capital Account. Show working clearly.</p> | 6 |

Max. Marks-20

| S.N. | QUESTIONS | MARKS |
|------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|
| 1 | A, B and C are partners sharing profits in the ratio of 3:3:2. As per the partnership agreement, C is to get a minimum amount of 80,000 as his share of profits every year and any deficiency on this account is to be personally borne by A & B in 3:2. The net profit for the year ended 31st March, 2025 amounted to 3,12,000. How much of deficiency to be borne by A? a. 1,200 b. 2,000 c. 800 d. None of these | 1 |
| 2 | Assertion (A): Guarantee of minimum profit may be given to a partner. Reason(R): It is compulsory as per Indian Partnership Act, 1932. a) Both (A) and (R) are true and (R) is the correct explanation of (A) b) Both (A) and (R) are true and (R) is not the correct explanation of (A) c) (A) is true, but (R) is false d) (A) is false, but (R) is true. | 1 |
| 3 | P, Q, and R are partners in the ratio of 6 : 4 : 1. In the firm, P has guaranteed R for his minimum profit of 15,000. Firm's profit was 99,000. In the firm profit Ps share will be : (a) 30,000 (b) 15,000 (c) 48,000 (d) 45,000 | 1 |
| 4 | A, B, and C are partner's sharing profits in the ratio of 5:3:2 According to the partnership agreement C is to get a minimum amount of 10,000 as his share of profits every year. The net profit for the year ended 31st March, 2025 amounted to 40,000. How much amount contributed by A? a) 1,350 b) 1,250 c) 750 d) 1,225 | 1 |
| 5 | A and V are equal partners with fixed capitals of 5,00,000 and 2,00,000 respectively. After closing the accounts for the year ending 31st March 2025 it was discovered that interest on capitals was provided @ 6% instead of 5% p.a. In the adjusting entry: (a) A will be debited by 1,500 and V will be credited by 1,500; (b) A will be credited by 1,500 and V will be debited by 1,500; (c) A will be debited by 5,000 and V will be debited by 2,000; (d) A will be credited by 5,000 and V will be credited by 2,000; | 1 |
| 6 | A, B, and C are partners in the ratio of 4 : 3 : 2. Salary to A 15,000 and to C 3,000 omitted and profits distributed. For rectification, now A will be credited: (a) 15,000 (b) 1,000 (c) 12,000 (d) 7,000 | 1 |
| 7 | When a partner is given guarantee by other partners, loss on such guarantee will be borne by : (a) Partnership firm (b) All the other partners (c) Partners who give the guarantee (d) Partner with highest profit-sharing ratio. | 1 |

| | | |
|----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---|
| 8 | <p>M & S are partners Sharing profits in the ratio of 3:2. R was admitted for $\frac{1}{6}$th share of profit with a minimum guaranteed profit of Rs.10,000. At the close of the first financial year on 31st March 2025, the firm earned profit of Rs. 54,000. Find the share of profit which M, S & R will get.</p> <p>Prepare Profit & Loss appropriation Account.</p> | 3 |
| 9 | <p>The partners of the firm A , B & C distributed the profits for the year ended 31st March 2025 Rs.80,000 in the ratio of 3 : 3 : 2 without providing for the following adjustments:-</p> <p>(a) A and C were entitled to a salary of Rs 1,500 p.m.</p> <p>(b) B was entitled for a commission of Rs. 4,000</p> <p>(c) B and C had guaranteed a minimum profit of Rs.35,000 to A. Any deficiency to be borne by equally by B & C.</p> <p>Pass necessary journal entry for the above adjustments in the books of the firm. Show your working clearly.</p> | 4 |
| 10 | <p>On 31st March 2025, the balances in the Capital Account of A, B and V, after making adjustments for profits and drawings were Rs.8,00,000, Rs.6,00,000 and Rs.4,00,000 respectively.</p> <p>Subsequently, it was discovered that interest on capital and interest on drawings had been omitted. The partners were entitled to interest on capital @10% p.a. and were to be charged interest on drawings @6%p.a. The drawings during the year were: A- Rs. 20,000 drawn at the end of each month, B- Rs.50,000 drawn at the beginning of every half year and V – Rs.1,00,000 withdrawn on 31st October 2024. The net profit for the year ended 31st march 2025 was Rs.1,50,000. The profit-sharing ratio was 2: 2: 1.</p> <p>Pass necessary adjusting entry for the above adjustments in the books of the firm. Also show your working clearly.</p> | 6 |

WORKSHEET-4

CHAPTER: CHANGE IN PROFIT SHARING RATIO AMONG THE EXISTING PARTNERS

SUB TOPICS: VALUATION AND TREATMENT OF GOODWILL

Time allowed: 20 minutes

Max. Marks-20

| S.N. | QUESTIONS | MARKS |
|------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|
| 1 | Assertion (A): At the time of change in profit sharing ratio, Goodwill of the firm is valued. Reason (R): Goodwill of the firm is valued at a time of change in profit sharing ratio because the sacrificing partners are compensated by the gaining partners. a) Both assertion(A) and reason(R) are correct and reason(R) is the correct explanation of assertion (A). b) Both assertion(A) and reason(R) are correct and reason(R) is not the correct explanation of assertion (A). c) Assertion(A) is false and reason(R) is true. d) Assertion(A) is true and reason(R) is false | 1 |
| 2 | Partnership firm has capital employed of Rs 8,00,000. Its average profits are Rs 60,000. The normal rate of return in similar type of business is 10%. The amount of super profit is: a) Rs 60,000 b) Rs 8,000 c) Rs 52,000 d) nil | 1 |
| 3 | P and Q were partners sharing profits and losses in the ratio of 3 : 2. They decided that with effect from 1st January, 2023 they would share profits and losses in the ratio of 5: 3. Goodwill is valued at Rs 1,28,000. In adjustment entry: (A) Cr. P by Rs 3,200; Dr. Q by Rs 3,200 (B) Cr. P by 37,000; Dr. Q by Rs 37,000 (C) Dr. P by 37,000; Cr. Q by Rs 37,000 (D) Dr. P by Rs 3,200; Cr. Q by Rs 3,200 | 1 |
| 4 | If the capitalised value of a firm is Rs 6,00,000 and the actual capital employed is Rs 4,50,000, what is the goodwill? a) Rs 1,00,000 b) Rs 1,50,000 c) Rs 2,00,000 d) Rs 50,000 | 1 |
| 5 | The profits of a firm for the last 4 years were: 2019: Rs 40,000 2020: Rs 45,000 2021: Rs 50,000 2022: Rs 65,000 Calculate the value of goodwill on the basis of 3 years' purchase of the weighted average profit. The weights are 1, 2, 3, and 4 respectively. In 2022, closing stock was overvalued by Rs 5,000 | 3 |
| 6 | Reeha, Meenu and Sara were partners in a partnership firm sharing profit and losses in the ratio of 2:2:1. With effect from 1st April, 2023. agreed | |

| | to share profits and losses equally. On that date, there was a General Reserve of Rs. 50,000 in the books of the firm. It was agreed that: (i) Goodwill of the firm be valued at Rs 3,00,000. Pass necessary journal entries for the above transactions in the books of the firm. | 3 | | | | | | | | | | | | |
|------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|---------|------------------------------|----------|------------------------------|----------|------------------------------|----------|------------------------------|----------|------------------------------|----------|---|
| 7 | RG and MK are the partners in the firm. Their capitals are 3, 00,000 and 2,00,000. They decided to share future profits in ratio of 2:3. During the year ended 31 st March, 2025 the firm earned a profit of 1,50,000. Assuming that the normal rate of return is 20%. Calculate the value of goodwill of the firm by capitalization method and pass necessary journal entry. | 4 | | | | | | | | | | | | |
| 8 | Anita and Banaya are partners sharing profits in the ratio of 3 : 2. They decided to share future profits equally.. It was agreed to value goodwill at three year's purchase on the basis of average profit for the past 5 years. The profits of 5 years were:- <table border="1"><thead><tr><th>Year ended</th><th>Profits</th></tr></thead><tbody><tr><td>31st March, 2015</td><td>1,80,000</td></tr><tr><td>31st March, 2016</td><td>1,60,000</td></tr><tr><td>31st March, 2017</td><td>2,50,000</td></tr><tr><td>31st March, 2018</td><td>3,00,000</td></tr><tr><td>31st March, 2019</td><td>3,50,000</td></tr></tbody></table> 1. Book revealed: a. An abnormal gain of Rs. 20,000 was earned in the year ended 31 st March, 2016. b. An abnormal loss of Rs. 10,000 was incurred in the year ended 31 st March, 2017.. Calculate the value of goodwill. And pass necessary journal entry. | Year ended | Profits | 31 st March, 2015 | 1,80,000 | 31 st March, 2016 | 1,60,000 | 31 st March, 2017 | 2,50,000 | 31 st March, 2018 | 3,00,000 | 31 st March, 2019 | 3,50,000 | 6 |
| Year ended | Profits | | | | | | | | | | | | | |
| 31 st March, 2015 | 1,80,000 | | | | | | | | | | | | | |
| 31 st March, 2016 | 1,60,000 | | | | | | | | | | | | | |
| 31 st March, 2017 | 2,50,000 | | | | | | | | | | | | | |
| 31 st March, 2018 | 3,00,000 | | | | | | | | | | | | | |
| 31 st March, 2019 | 3,50,000 | | | | | | | | | | | | | |

HINT ANSWERS – WORKSHEET-4

1. A 2. Nil 3. Answer: a) 4. Answer: b) ₹1,50,000
 5. Weighted average profit = 52000 , Goodwill = 52000 X 3 = 1,56,000
 6. Reeha, Meenu sacrifices 1/15 each and Sara gains 2/15
 7. RG gains and MK sacrifices
 8. Goodwill 246000 X 3 = 7,38,000
- Banaya gains 1/10 and Anita sacrifices 1/10

| 1 | Assertion (A): IFR can be used to write off losses on the sale of investments. Reason (R): IFR is maintained to meet any possible decline in the market value of investments. A. Both A and R are true, and R is the correct explanation of A. B. Both A and R are true, but R is not the correct explanation of A. C. A is true, but R is false. D. A is false, but R is true. | 1 |
| 2 | If a firm has an Investment Fluctuation Reserve of Rs.10,000 and the market value of investment falls by Rs.7,000, the amount to be distributed among partners is: A. Rs.10,000 B. Rs.3,000 C. Rs.7,000 D. Zero | 1 |
| 3 | Assertion (A): Accumulated profits can be distributed among partners in their old profit-sharing ratio at the time of retirement. Reason (R): Accumulated profits are considered as liabilities and not distributable among partners. <ul style="list-style-type: none">• A. Both A and R are true, and R is the correct explanation of A.• B. Both A and R are true, but R is not the correct explanation of A.• C. A is true, but R is false.• D. A is false, but R is true. | 1 |
| 4 | If there is a Workmen Compensation Reserve of Rs.15,000 and actual liability is Rs.7,000, the balance amount of Rs.8,000 is: A. Transferred to Revaluation A/c B. Credited to old partners' capital accounts in old ratio C. Distributed among all partners D. Written off | 1 |
| 5 | If the fall in value of investments is less than the balance in IFR, the surplus is _____ among the partners in the _____ ratio. | 1 |
| 6 | The firm has WCR of Rs.10,000. During reconstitution, a provision for liability of Rs.12,000 is created. What is the accounting treatment? A. Debit Rs.2,000 to Revaluation A/c B. Credit Rs.2,000 to Revaluation A/c C. Rs.2,000 is distributed among partners D. No adjustment is made | 1 |
| 7 | At the time of retirement of a partner, how are undistributed profits and reserves treated? A. Transferred to the retiring partner only | 1 |

HINT ANSWERS – WORKSHEET-5

| | | |
|----|------------------------------------------------------------------------------------------------------------------------------------------------|---|
| 1 | Answer- A. Both A and R are true, and R is the correct explanation of A. | 1 |
| 2 | Answer- B. Rs.3,000 | 1 |
| 3 | Answer- C. A is true, but R is false. | 1 |
| 4 | Answer- B. Credited to old partners' capital accounts in old ratio. | 1 |
| 5 | Answer- distributed, old profit-sharing. | 1 |
| 6 | Answer- A. Debit Rs.2,000 to Revaluation A/c. | 1 |
| 7 | Answer- D. Credited to all partners in the old profit-sharing ratio. | 1 |
| 8 | Answer- (i)The entire WCR of Rs.10,000 is used. (ii)The excess Rs.2,000 will be debited to the Revaluation A/c. | 3 |
| 9 | Hint Answers- (i) P- 15,000, (ii) To Investement- 12,000 (iii) Revaluation A/c.....Dr To Revaluation A/c | 4 |

CHAPTER: ADMISSION OF A PARTNER

SUB TOPICS: REVALUATION A/C, ADJUSTMENT OF GOODWILL AND CAPITAL ADJUSTMENT

Time allowed: 20 minutes

Max. Marks-20

| S.N. | QUESTIONS | MARKS |
|------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|
| 1 | Assertion (A): On the admission of a new partner, the existing partners sacrifice a part of their profit-sharing ratio. Reason (R): The new partner brings goodwill in cash to compensate the sacrificing partners. Options: a) Both A and R are true, and R is the correct explanation of A. b) Both A and R are true, but R is not the correct explanation of A. c) A is true, but R is false. d) A is false, but R is true. | 1 |
| 2 | If at the time of admission, the revaluation A/c shows a loss, it should be— (a) Credited to old partners capital A/c in old ratio. (b) Credited to old partners capital A/c in sacrificing ratio. (c) Debited to old partners capital A/c in old ratio. (d) Debited to old partners capital A/c in sacrificing ratio | 1 |
| 3 | L and M are partners sharing profits in ratio of 3 : 2 respectively. N was admitted for 1/5th share of profit. Machinery would be appreciated by 10% (Book value Rs 80,000) and Building would be depreciated by 20% (Rs 2,00,000). Unrecorded debtors of Rs 1250 would be brought into books new and a creditor amounting to ` 2750 need not pay anything on this account. What will be profit/loss on revaluation? (a) Loss Rs 28,000 (b) Profit Rs 28,000 (c) Loss Rs 40,000 (d) Profit Rs 40,000 | 1 |
| 4 | Assertion (A): At the time of admission, revaluation of assets and liabilities is necessary. Reason (R): It helps to adjust the capital accounts of the old partners according to the new profit-sharing ratio. Options: a) Both A and R are true, and R is the correct explanation of A. b) Both A and R are true, but R is not the correct explanation of A. c) A is true, but R is false. d) A is false, but R is true. | 1 |
| 5 | Abhay and Beena are partners in a firm. They admit Chetan as a partner with 1/4 th share in the profits of the firm. Chetan brings Rs. 2,00,000 as his share of capital. The value of the total assets of the firm is Rs. 5,40,000 and outside liabilities are valued at Rs. 1,00,000 on that date. Give the necessary entry to record goodwill at the time of Chetan's admission. Also show your working notes. | 3 |
| 6. | Aksh and Naksh are partners sharing profits and losses in the ratio of 3/5 and 2/5 respectively. Daksh admitted into partnership and it was decided that New profit | 3 |

| | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |

WORKSHEET-7

CHAPTER: RECONSTITUTION OF PARTNERSHIP

SUB TOPICS: ADJUSTMENT OF CAPITAL

Time allowed: 20 minutes

Max. Marks-20

| S.N. | QUESTIONS | MARKS |
|------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|
| 1 | A and B are partners sharing profits in the ratio of 3:2. They admit C for 1/5th share. The total capital of the firm after C's admission is Rs.5,00,000. How much capital should C bring? A. Rs 1,00,000 B. Rs 2,00,000 C. Rs 1,25,000 D. Rs 5,00,000 | 1 |
| 2 | Assertion (A): Adjustment of capitals after retirement helps maintain proper capital structure. Reason (R): Adjusted capital ensures capital contribution is proportionate to profit-sharing ratio. A. Both A and R are true, and R is the correct explanation of A. B. Both A and R are true, but R is not the correct explanation of A. C. A is true, but R is false. D. A is false, but R is true. | 1 |
| 3 | Source Passage: "On the death of a partner, the firm is reconstituted, and the share of the deceased partner is settled as per the terms of the partnership deed or legal provisions. The remaining partners may decide to adjust their capitals according to the new profit-sharing ratio, either by bringing in or withdrawing capital, depending on the total capital decided upon." The capital of remaining partners is adjusted: A. In the old profit-sharing ratio B. In the sacrificing ratio C. In the gaining ratio D. In the new profit-sharing ratio | 1 |
| 4 | A and B are partners sharing profits in the ratio of 3:2. They admit C as a new partner for 1/5th share in the profits. The new profit-sharing ratio among A, B, and C is agreed to be 5:3:2. The total capital of the newly constituted firm is fixed at ₹10,00,000. C brings in his share of capital in cash. a. Calculate the capital to be brought in by C. b. Determine the new capitals of A and B based on the new profit-sharing ratio. c. State any one reason why capitals of A and B may need to be adjusted. | 3 |
| 5 | P, Q, and R are partners in a firm sharing profits in the ratio 4:3:3. R retires, and the remaining partners decide to share profits equally in future. The total capital of the new firm is decided to be ₹6,00,000. Capitals of P and Q are to be adjusted in their new profit-sharing ratio by bringing in or withdrawing cash. (a) Calculate the new capital of P and Q. (b) How much cash will P and Q bring in or withdraw? (c) Why is it important to adjust capitals after a partner retires? | 4 |
| 6 | X, Y, and Z were partners in a firm sharing profits in the ratio of 2:2:1. Z died on | 4 |

| | | |
|---|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---|
| | <p>31st August, 2024. After Z's death, X and Y decided to continue the business sharing profits equally. The total capital of the reconstituted firm was agreed to be Rs 9,00,000. The capitals of X and Y were to be adjusted in their new profit-sharing ratio by bringing in or withdrawing cash.</p> <p>On the date of Z's death:</p> <ul style="list-style-type: none"> • Capital of X = Rs 3,20,000 • Capital of Y = Rs 3,80,000 <ol style="list-style-type: none"> a. Calculate the new capital of X and Y based on the new profit-sharing ratio. b. How much amount will each of them bring in or withdraw to adjust their capitals? c. Why is it necessary to adjust capitals after the death of a partner? | |
| 7 | <p>Case Study:</p> <p>Riya and Meena are partners in a firm sharing profits in the ratio of 3:2. On 1st April 2024, they admitted Sara as a new partner for 1/5th share in the firm. The new profit-sharing ratio was decided as 5:3:2 among Riya, Meena, and Sara respectively. It was agreed that the total capital of the new firm would be ₹5,00,000, and the capital of each partner would be adjusted in the new profit-sharing ratio.</p> <p>On the date of admission, the capital accounts showed:</p> <p>Riya = Rs 2,00,000 and Meena = Rs 1,20,000 Sara brings in her share of capital in cash.</p> <p>Q1. What is the new ratio of the partners?</p> <p>A. 3:2:1 B. 5:3:2 C. 3:2 D. 2:2:1</p> <p>Q2. What will be Sara's capital contribution?</p> <p>A. Rs 1,00,000 B. Rs 2,00,000 C. Rs 1,50,000 D. Rs 2,50,000</p> <p>Q3. What should be Riya's capital after adjustment?</p> <p>A. Rs 1,80,000 B. Rs 2,00,000 C. Rs 2,50,000 D. Rs 1,50,000</p> <p>Q4. How much capital will Meena have after adjustment?</p> <p>A. Rs 1,50,000 B. Rs 1,20,000 C. Rs 1,00,000 D. Rs 2,00,000</p> <p>Q5. How much amount will Riya need to bring in or withdraw?</p> <p>A. Bring Rs 50,000 B. Withdraw Rs 50,000 C. Bring Rs 1,00,000 D. No adjustment</p> <p>Q6. Why is capital adjusted among old partners after admission of a new partner?</p> <p>A. To calculate goodwill B. To maintain accounting equation C. To match capital with new profit-sharing ratio D. To increase total capital</p> | 6 |

HINT ANSWERS – WORKSHEET-7

Q.no.1 A) 100000

Q.no.2 A)

Q.no.3 D)

Q.no.4 **(a)** C's share = $2/10$ of ₹10,00,000 = ₹2,00,000

(b) A's share = $5/10$ of ₹10,00,000 = ₹5,00,000

B's share = $3/10$ of ₹10,00,000 = ₹3,00,000

(c) To ensure that their capitals are in proportion to the new profit-sharing ratio, so that profit distribution remains fair and balanced.

Q.No.5**(a)** New ratio of P and Q = 1:1

Each partner's capital = ₹6,00,000 ÷ 2 = ₹3,00,000

(b)

- If existing capital of P was ₹2,80,000 → He brings ₹20,000
- If existing capital of Q was ₹3,50,000 → He withdraws ₹50,000
(Note: Assumes given existing capitals; if not provided, student should state assumption.)

(c) To ensure fairness and reflect the new profit-sharing arrangement accurately.

Q.no 6 **a)** New ratio of X and Y = 1:1

Each partner's capital = ₹9,00,000 ÷ 2 = ₹4,50,000

(b)

- X will bring in ₹4,50,000 – ₹3,20,000 = ₹1,30,000
- Y will bring in ₹4,50,000 – ₹3,80,000 = ₹70,000
- **(c)**
To align the capital of remaining partners with their new profit-sharing ratio and ensure equity in future profit distribution.

7.1.B

2.A

| S.NO. | QUESTION | MARKS |
|-------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|
| 1 | Assertion (A): The partners whose profit shares have increased as result of change in profit sharing ratio are known as gaining partners. Reason(R): Gaining ratio = new ratio - old ratio (A) Both A and R are correct and R is the correct explanation of A. (B) Both A and R are correct but R is not the correct explanation of A. (C) A is correct but R is wrong (D) A is wrong but R is correct. | 1 |
| 2 | A, B and C are partners in a firm sharing profit and losses in 3:4:2 B retire from the firm. The profit on revaluation on that date was Rs. 72,000, New ratio between A and C is 5:3 Profit on revaluation will be distributed as: (A) A Rs. 32,000 B Rs. 24,000 C Rs. 16,000 (B) ARs. 24,000 B Rs. 32,000 C Rs. 16,000 (C) A Rs. 45,000 C Rs. 27,000 (D)47,250 C Rs. 24,750 | 1 |
| 3 | STATEMENT (I): If the firm has agreed to pay the amount to retiring partner in excess of his adjust capital due its shall be treated as his share of reserve. STATEMENT (II): Retiring partner is entitled to interest on his/her loan @6% p.a. If not mentioned in question. (A) Both statements are correct. (B) Both statements are incorrect. (C) Statement (I)is correct and statement (II) is incorrect. (D) Statement (I) is incorrect and statement (II) is incorrect. | 1 |
| 4 | A, B and C were partners in a firm sharing profit and losses in the ratio of 2:2:1. The capital balance are Rs. 50,000 for A, Rs. 70,000 for B, Rs. 35,000 for C. B decided to retire from the firm and balance in reserve on the date was Rs. 25000. If goodwill of the firm was valued at Rs. 30,000 and profit on revaluation was Rs. 7,500, then, what amount will be payable to B? (A) Rs. 70,820 (B) Rs. 76,000 (C) Rs. 75,000 (D) Rs. 95,000 | 1 |
| 5 | X,Y and Z were partners sharing profits in the ratio of 5:3:2. Goodwill does not appear in the books but it is agreed to be valued at Rs.1,00,000. X died and Y and Z decide to share profit equally. X's share of goodwill will be debited to Y's and Z's capital a/c in__ ratio : (A) 12:12 (B) 2:3 (C) 3:2 (D) None of these | 1 |
| 6 | On retirement of a partner, the existing goodwill in the balance sheet is written off and debited to: (A) All partner's capital a/c in old ratio (B) Remaining partners capital a/c in new ratio | 1 |

| | (C) Remaining partners capital a/c in gaining ratio (D) None of these | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
|------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|----------|--------|--------|------------------|--------|------|-------|-----------------|--------|-------|--------|-----------|--|---------|--------|---------------|--|-------------|--------|----------------|----------|-----------|----------|---------------|--|--|--|--|----------|--|----------|---|
| 7 | A, B and C are equal partners. C retires. He surrenders 3/5th of his share in favour of A and 2/5th in favour of B. New ratio will be : (A) 3:2 (B) 8:7 (C) 7:8 (D) 2:3 | 1 | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 8 | Hema, Gagan and Neha are partners sharing profits and losses in the ratio of 3:2:1. On 31 st march, 2024, Neha retires. The various assets and liabilities of the firm on the date were as follows: Cash Rs.10,000, Building Rs.1,00,000, Plant and Machinery Rs.20,000 and Investment Rs.30,000. The following was agreed upon between the partners on Neha's retirement: (i) Building to be appreciated by 20%. (ii) Plant and Machinery depreciated by 10%. (iii) A provision of 5% on debtors to be created for bad doubtful debts. Pass journal necessary entries for revaluation of assets | 3 | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 9 | A, B, C and D are partners sharing profits in the ratio of 3:3:2:2 respectively. D retires and A, B and C decide to share the future profits in the ratio of 3:2:1. Goodwill of the firm is valued at Rs 6,00,000. Goodwill already appears in the books at Rs 4,50,000. The profits for the first year after D retirement amount to Rs 12,00,000. Give the necessary journal entries to record goodwill and to distribute the profits. Show calculations clearly. | 4 | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 10 | <p>Gita, Radha and Gaurav were partners in a firm sharing profits and loss in the ratio 3:5:2. On 31st march ,2023, Their balance sheet are as follows:</p> <table><tr><th>LIABILITIES</th><th>AMOUNT</th><th>ASSETS</th><th>AMOUNT</th></tr><tr><td>Sundry creditors</td><td>60,000</td><td>Cash</td><td>50000</td></tr><tr><td>General reserve</td><td>40,000</td><td>Stock</td><td>80,000</td></tr><tr><td>Capitals:</td><td></td><td>Debtors</td><td>40,000</td></tr><tr><td>Gita 3,00,000</td><td></td><td>Investments</td><td>30,000</td></tr><tr><td>Radha 2,00,000</td><td>6,00,000</td><td>Buildings</td><td>5,00,000</td></tr><tr><td>Garv 1,00,000</td><td></td><td></td><td></td></tr><tr><td></td><td>7.00,000</td><td></td><td>7,00,000</td></tr></table> <p>Radha retired on the above date it was agreed that:</p> <p>(a) Goodwill of the firm be valued at Rs.3,00,000 and Radha's share be adjusted through the capital accounts of Gita and Gaurav.</p> <p>(b) Stock was to be appreciated by 20%.</p> <p>(c) Building were found undervalued by Rs.1,00,000.</p> <p>(d) Investments were sold for Rs..34,000</p> <p>Capitals of the new firm was fixed at Rs.5,00,000 which will be in the new profit- sharing ratio of the partners. The necessary adjustments for this purpose were to be made by opening current accounts of the partners. Prepare revaluation account, Partner's capital account and the balance sheet of the reconstituted firm on Radha's retirement.</p> | LIABILITIES | AMOUNT | ASSETS | AMOUNT | Sundry creditors | 60,000 | Cash | 50000 | General reserve | 40,000 | Stock | 80,000 | Capitals: | | Debtors | 40,000 | Gita 3,00,000 | | Investments | 30,000 | Radha 2,00,000 | 6,00,000 | Buildings | 5,00,000 | Garv 1,00,000 | | | | | 7.00,000 | | 7,00,000 | 6 |

| S.NO. | QUESTION | MARKS |
|-------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|
| Q1 | A, B, and C are partners sharing profits in the ratio of 3:2:1. C dies and his capital on the date of death was Rs.60,000. His share of goodwill is valued at Rs.12,000. How much will be payable to C's executors for goodwill? A) Rs.12,000 B) Rs.2,000 C) Rs.10,000 D) Rs.60,000 | 1 |
| Q2 | X, Y, and Z are partners in a firm. Z dies and on the date of death, Z's capital was Rs.50,000 and his share of goodwill is Rs.15,000. The firm had insurance policy proceeds of Rs.40,000 payable to Z's estate. What is the total amount payable to Z's executor? A) Rs.65,000 B) Rs.105,000 C) Rs.90,000 D) Rs.40,000 | |
| Q3 | A, B, and C are partners. C dies and his capital is Rs.80,000. He is also entitled to a share of profit Rs.10,000 and goodwill Rs.20,000. What amount will be paid to C's executor? A) Rs.100,000 B) Rs.110,000 C) Rs.80,000 D) Rs.90,000 | |
| Q4 | Assertion (A): On the death of a partner, the firm is reconstituted. Reason (R): The partnership comes to an end completely when any partner dies. Options: A) Both A and R are true, and R is the correct explanation of A. B) Both A and R are true, but R is not the correct explanation of A. C) A is true, but R is false. D) A is false, but R is true. | |
| Q5 | Assertion (A): A deceased partner is entitled to a share of profits till the date of death. Reason (R): The executor of the deceased partner receives profits for the full year. Options: A) Both A and R are true, and R is the correct explanation of A. B) Both A and R are true, but R is not the correct explanation of A. C) A is true, but R is false. D) A is false, but R is true. | |
| Q6 | Assertion (A): On the death of a partner, his capital account is settled as per the terms of the partnership deed. Reason (R): The executor of the deceased partner becomes a new partner in the firm. Options: A) Both A and R are true, and R is the correct explanation of A. | |

| | B) Both A and R are true, but R is not the correct explanation of A. C) A is true, but R is false. D) A is false, but R is true. | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
|------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------|-----------------|--------|-----|------------------|----------|--------------|--------|------------------|--|-------|--------|---|--------|----------------|--------|---|----------|-------------|--------|---|--------|-----------|--------|-----------------|--------|-----------|----------|--|-----------------|--|-----------------|---|
| Q7 | On the death of a partner, his share of goodwill is credited to the _____ of the remaining partners. a) Revaluation Account b) Capital Accounts (in gaining ratio) c) Profit and Loss Appropriation Account d) Drawings Account | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| Q8 | Partners A, B, and C share profits in the ratio of 2:2:1. C died on September 30, 2024. The firm earned Rs.2,00,000 profit for the year, and sales till the date of C's death amounted to 40% of total sales. Calculate C's share of profit and pass journal entry for the same. | 3 | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| Q9 | A, B, and C were partners in a firm sharing profits in the ratio 4:3:3. C died on June 30, 2024. His capital on April 1, 2024, was Rs.1,00,000. He was entitled to: i) Interest on capital @ 10% p.a. ii) His share of profit (based on previous year's profit of Rs.1,20,000). iii) Share of goodwill of the firm valued at Rs.60,000. Calculate the total amount to be transferred to C's Executors' Account. | 4 | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| Q10 | <p>X, Y and Z are partners sharing profits and losses in the ratio of 2:2:1 respectively. Their Balance Sheet as on 31st March 2020 was as follows—</p> <table><tr><th>Liabilities</th><th>Rs.</th><th>Assets</th><th>Rs.</th></tr><tr><td>Sundry Creditors</td><td>1,00,000</td><td>Cash at bank</td><td>20,000</td></tr><tr><td>Capital Accounts</td><td></td><td>Stock</td><td>30,000</td></tr><tr><td>X</td><td>60,000</td><td>Sundry Debtors</td><td>80,000</td></tr><tr><td>Y</td><td>1,00,000</td><td>Investments</td><td>70,000</td></tr><tr><td>Z</td><td>40,000</td><td>Furniture</td><td>35,000</td></tr><tr><td>General Reserve</td><td>50,000</td><td>Buildings</td><td>1,15,000</td></tr><tr><td></td><td>3,50,000</td><td></td><td>3,50,000</td></tr></table> <p>Z died on 30th September 2020 and the following was provided—</p> <p>a) "Z" will be entitled to his share of profit upto the date of death based on last year's profit.</p> <p>b) Z's share of Goodwill will be calculated on the basis of 3 years purchase of average profits of last four years . The profits of the last four years was as follows— Year I – 80,000, Year II –Rs. 50,000 Year III – Rs. 40,000 and Year IV –Rs. 30,000</p> <p>c) Interest on Capital was provided at 12% p.a.</p> <p>d) Drawings of the deceased partner upto the date of death was Rs. 10,000.</p> <p>e) Rs. 15,400 should be paid immediately to the executor of the deceased partner and the balance in four equal yearly installments with interest at 12% on remaining balance.</p> <p>Prepare Z's capital account and Z's executors account till the account is finally closed.</p> | Liabilities | Rs. | Assets | Rs. | Sundry Creditors | 1,00,000 | Cash at bank | 20,000 | Capital Accounts | | Stock | 30,000 | X | 60,000 | Sundry Debtors | 80,000 | Y | 1,00,000 | Investments | 70,000 | Z | 40,000 | Furniture | 35,000 | General Reserve | 50,000 | Buildings | 1,15,000 | | 3,50,000 | | 3,50,000 | 6 |

HINT ANSWERS – WORKSHEET-9

| Q1 | Answer: A) Rs.12,000 | 1 | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|-------------------------------|------------------|--------|--|--|-------------|--|-----|-------------|--|-----|-------------|--|--------|----------------|--|--------|-----------------------|--|--------|--------------------|--|--------|--|--|--|-------------------------------|--|-------|--|--|--|------------------------|--|------|--|--|--|--------------------|--|--------|--|--|--|--------------------|--|--------|--|--|-------|--|--|-------|------------------------|--|--|--|--|--|------|-------------|-----|------|-------------|-----|----------|----------|-------|----------|-----------------|-------|--|--|--|----------|------------------|--|---|
| Q2 | Answer: B) Rs.105,000 (Rs.50,000 + Rs.15,000 + Rs.40,000) | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| Q3 | Answer: B) Rs.110,000 (Rs.80,000 + Rs.10,000 + Rs.20,000) | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| Q4 | Answer: C) A is true, but R is false. (Explanation: The firm is reconstituted, not dissolved unless agreed otherwise. So R is incorrect.) | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| Q5 | Answer: C) A is true, but R is false. (Explanation: Profits are credited only up to the date of death, not for the full year.) | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| Q6 | Answer: C) A is true, but R is false. (Explanation: The executor is not automatically a partner; they are only entitled to the deceased partner's dues.) | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| Q7 | Answer: b) Capital Accounts (in gaining ratio) | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| Q8 | ANSWER * C's share = Rs.2,00,000 × 40% × 1/5 * \= Rs.2,00,000 × 0.40 × 0.20 = Rs.16,000 *C's profit share: Rs.16,000* Profit and loss suspense A/c Dr. 16,000 To C's Capital Account 16,000 | 3 | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| Q9 | *Answer:* 1. *Interest on Capital (for 3 months):* Rs.1,00,000 × 10% × 3/12 = Rs.2,500 2. *Share of Profit (C's share = 3/10):* Rs.1,20,000 × 3/12 × 3/10 = Rs.9,000 3. *Share of Goodwill:* Rs.60,000 × 3/10 = Rs.18,000 4. *Capital A/c Balance:* Rs.1,00,000 *Total Amount to Executors' A/c =* Rs.1,00,000 + Rs.2,500 + Rs.9,000 + Rs.18,000 = *Rs.1,29,500* | 4 | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |

WORKSHEET-12

CHAPTER: ISSUE OF SHARES

SUB TOPICS: ISSUE OF SHARES FOR CASH

Time allowed: 20 minutes

Max. Marks-20

| S.NO. | QUESTION | MARKS |
|-------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|
| 1 | 1. Assertion (A): A company can issue shares at a discount with the permission of the shareholders. Reasoning (R): Issuing shares at a discount reduces the company's capital. Which of the following options is correct? a) Both A and R are true, and R is the correct explanation of A. b) Both A and R are true, but R is not the correct explanation of A. c) A is true, but R is false. d) A is false, but R is true. | 1 |
| 2 | 2. Rahul invested in a company that issued 10,000 shares of ₹ 100 each at a premium of ₹ 20 per share. How much did Rahul pay for each share? a) 120 b) 100 c) 90 d) 110 | 1 |
| 3 | When shares are issued at a price higher than their face value, it is called issue of shares at _____. | 1 |
| 4 | Amit applied for 1,000 shares of a company that issued 10,000 shares. However, the company received applications for 15,000 shares and decided to make pro rata allotment. How many shares will Amit get? | 1 |
| 5 | Y Ltd. issued 50,000 shares of ₹ 10 each at par. The company received applications for 60,000 shares. The company decided to allot shares pro-rata to all applicants. Calculate the number of shares to be allotted to an applicant who applied for 600 shares. | 3 |
| 6 | X Ltd. issued 1,00,000 shares of ₹ 10 each at par. However, the company received applications for only 80,000 shares. What are the implications of this under subscription? | 3 |
| 7 | X Ltd. issued 1,00,000 shares of ₹ 10 each at a premium of ₹ 2 per share. The company received applications for 1,20,000 shares. How would you deal with the excess application money? | 4 |
| 8. | Ltd. issued 1,00,000 shares of ₹ 10 each at par. The company received applications for 1,20,000 shares. The directors decided to make pro rata allotment. The amount was payable as follows: - ₹ 2 on application - ₹ 3 on allotment - ₹ 5 on first and final call Pass the necessary journal entries in the books of X Ltd. | 6 |

HINT ANSWERS – WORKSHEET-12

1. Answer:

b) Both A and R are true, but R is not the correct explanation of A.

Explanation: A company can issue shares at a discount with the permission of the shareholders, but the reason for this is not that it reduces the company's capital. Instead, it's because the Companies Act allows companies to issue shares at a discount under certain conditions.

2. Answer 120

3. Answer: premium

4. Answer: To calculate the number of shares Amit will get, we need to calculate the proportionate allotment.

Proportionate allotment = (Number of shares issued / Total number of shares applied for) x
Number of shares applied for
= (10,000 / 15,000) x 1,000

= 666.67 shares (rounded to 667 shares, as shares can't be allotted in fractions)

These story-based questions assess the student's ability to apply the concepts of issue of shares to real-life scenarios.

5. Answer: Number of shares applied for = 600

Total number of shares applied for = 60,000

Total number of shares issued = 50,000

Proportionate allotment = (Number of shares issued / Total number of shares applied for) x
Number of shares applied for

= (50,000 / 60,000) x 600 = 500 shares

The applicant will be allotted 500 shares.

Answer: The implications of under subscription are:

- The company may not be able to raise the desired amount of capital.
- The company's plans and projects may be affected due to insufficient funds.
- The company may have to reconsider its financial plans and strategies The company can either:
 - Refund the application money to the applicants if the minimum subscription is not met.
 - Proceed with the allotment of shares if the company decides to accept the reduced subscription.

7. Answer:

The company has received applications for 1,20,000 shares against the issue of 1,00,000 shares, resulting in over subscription of 20,000 shares.

The excess application money can be dealt with in the following ways:

- Refund the excess application money to the applicants
- Adjust the excess application money towards the allotment or call money
- Retain the excess application money and adjust it in future calls

8. 1. Application money received:

| | | | |
|--------------------------|-----|----------|--|
| Bank A/c | Dr. | 2,40,000 | |
| To Share Application A/c | | 2,40,000 | |

2. Adjustment of application money on pro rata allotment:

Share Application A/c Dr. 2,40,000

To Share Capital A/c 2,00,000

To ALLOTMENT 40,000

3. Allotment money due:

Share Allotment A/c Dr. 3,00,000

To Share Capital A/c 3,00,000

4. Allotment money received:

Bank A/c Dr. 260,000

To Share Allotment A/c 260,000

5. First and final call due:

Share First and Final Call A/cDr. 5,00,000

To Share Capital A/ 5,00,000 |

6. First and final call received:

Bank A/c | Dr. 5,00,000

|To Share First and Final Call A/c 5,00,000

These journal entries record the issue of shares, receipt of application money, allotment money, and first and final call money.

| Q8 | Explain the two methods of recording debenture issued as collateral security with suitable journal entries and presentation in Balance Sheet. | 4 marks |

HINT ANSWERS – WORKSHEET-16

Answer 1

A collateral security

Answer 2

Debenture Suspense A/c

Answer 3

Debenture Suspense A/c, Rs10,00,000

Answer 4

8% Debentures Account

Answer 5

(I) Bank A/c Dr. 4,95,000

To 8% Debenture Application and Allotment A/c 4,95,000

(Being money received on issue of debentures)

8% Debenture Application and Allotment A/c Dr. 4,95,000

Loss on Issue of Debentures A/c Dr. 1,10,000

To 8% Debenture A/c 5,50,000

To Premium on Redemption of Debentures A/c 55,000

(Being debentures allotted at 10% discount, redeemable at 10% premium)

(ii) Machinery A/c Dr. 2,00,000

To Vendor's A/c 2,00,000

(Being machinery purchased)

Vendor's A/c Dr. 2,00,000

Loss on Issue of Debentures A/c Dr. 20,000

To 8% Debentures A/c 2,00,000

To Premium on Redemption of Debentures A/c 20,000

(Being debentures issued as purchase consideration, redeemable at 10% premium)

(iii) Bank A/c Dr. 20,00,000

To Bank Loan A/c 20,00,000

(Being loan from bank obtained)

Debenture Suspense A/c Dr. 2,50,000

To 8% Debenture A/c 2,50,000

(Being 8% debentures issued as collateral security for obtaining bank loan)

Answer 6

Bank Account Dr. 5,00,000

To Bank Loan Account 5,00,000

(Being loan obtained from State Bank of India @ 10 % p.a. interest, against collateral security of 7,500 10 % debentures of Rs100 each)

Debenture Suspense Account Dr. 7,50,000

To 10% Debentures Account 7,50,000

(Being 10% Debentures issued as collateral security in favour of SBI)

Answer 7

First Method: No Entry in the books of accounts.

Balance Sheet as at(an Extract)

| Particulars | Note No. | Amount |
|----------------------------|----------|-----------|
| I. EQUITY AND LIABILITIES | | |
| 1. Non-Current Liabilities | | |
| Long Term Borrowings | 1 | 10,00,000 |

Notes to Accounts:

Particulars Details Amount

1. Long term borrowings

10,00,000

Loan from PNB

(Secured by issue of 12000, 10% debentures of Rs100 each as collateral security)

Second Method:

Debenture Suspense A/c Dr. 12,00,000

To 10% Debentures A/c 12,00,000

Balance Sheet as at(an Extract)

| Particulars | Note No. | Amount |
|----------------------------|----------|-----------|
| II. EQUITY AND LIABILITIES | | |
| 2. Non-Current Liabilities | | |
| Long Term Borrowings | 1 | 10,00,000 |

Notes to Accounts:

Particulars

Details

Amount

1. Long term borrowings

10,00,000

Loan from PNB

12,000, 10% debentures of `100 each

12,00,000

Less: Debenture Suspense A/c

(12,00,000)

Answer 8

Two Methods of recording:

(i) No entry Method

(ii) Journal entry method

CHAPTER: FINANCIAL STATEMENTS OF A COMPANY

SUB TOPICS: HEADINGS AND SUBHEADINGS

Time allowed: 20 minutes

Max. Marks-20

| S.NO. | QUESTION | MARKS |
|-------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|
| Q1 | 10% Debentures (redeemable after 5 years) are classified as: A) Current Liabilities B) Short-term Borrowings C) Long-term Borrowings D) Reserves and Surplus | 1 |
| Q2 | Preliminary Expenses are: A) Non-current Assets B) Deferred Revenue Expenses C) Not shown in revised Balance Sheet D) Intangible Assets | 1 |
| Q3 | Under which sub- head is Provision for Tax shown? A) Short-term Provisions B) Long-term Provisions C) Other Current Liabilities D) Trade Payables | 1 |
| Q4 | Assertion (A): Intangible Assets are the Assets which do not have physical existence. Reason(R) : Intangible Assets are shown under the head 'Current Assets' and sub head 'Other current Assets'. A) Both (A) and (R) are true and (R) is the correct explanation of (A). B) Both (A) and (R) are true and (R) is not the correct explanation of (A). C) (A) is true, but (R) is false. D) (A) is false, but (R) is true. | 1 |
| Q5 | Assertion (A): Contingent Liabilities are not the liabilities payable yet but may become liabilities when an event associated with it happens in future. Reason(R): Proposed Dividend is a contingent Liability because it will become a liability after the shareholders declare, i.e., approve it . A) Both (A) and (R) are true and (R) is the correct explanation of (A). B) Both (A) and (R) are true and (R) is not the correct explanation of (A). C) (A) is true, but (R) is false. D) (A) is false, but (R) is true. | 1 |

| | | |
|-------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---|
| Q6 | Under which heads and subheads following are shown in a company's Balance Sheet: 1. Public Deposits 2. Prepaid Rent 3. Computer Software | 3 |
| Q. 7 | Classify the following items under appropriate heads and sub-headings as per the format of the Balance Sheet of a company as per Schedule III of the Companies Act, 2013: 1. Trade Payables 2. Plant and Machinery 3. Securities Premium | 3 |
| Q8 | State any three main heads under the equity and liabilities section of a company's Balance Sheet as per Schedule III of the Companies Act, 2013. Also, give one example of a sub-heading for each. | 3 |
| Q9 | How are the following items shown while preparing Balance Sheet of a company? 1. Surplus i.e., Balance in Statement of profit & Loss (Dr.). 2. Interest accrued and due on Debentures. 3. Arrears of dividends on Cumulative Preference Shares. | 3 |
| Q10 | From the given figures, calculate Total Revenue and Total Expenses: Revenue from Operations: ₹8,00,000 Other Income: ₹50,000 Employee Benefits: ₹2,00,000 Depreciation: ₹60,000 Other Expenses: ₹40,000 | 3 |

HINT ANSWERS – WORKSHEET-19

| | | |
|--------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---|
| Ans.1 | C) Long-term Borrowings | 1 |
| Ans.2 | C) Not shown in revised Balance Sheet | 1 |
| Ans.3 | A) Short-term Provisions | 1 |
| Ans.4 | C) (A) is true, but (R) is false. | 1 |
| Ans.5 | B) Both (A) and (R) are true and (R) is not the correct explanation of (A). | 1 |
| Ans.6 | 1. Public Deposits- Heads : Non Current Liabilities; Sub-heading: Long term borrowing 2. Prepaid Rent-Heads : Current Assets; Sub Heading: Other current Assets 3. Computer Software - Heads : Non Current Assets; Sub Headng: Property, Plant and equipment and intangible Assets-Intangible Assets | 3 |
| Ans.7 | 1. Trade Payables – Head: Current Liabilities Sub-heading: Trade Payables 2. Plant and Machinery – Head: Non-Current Assets Sub-heading: Property, Plant and Equipment 3. Securities Premium – Head: Shareholders’ Funds Sub-heading: Reserves and Surplus | 3 |
| Ans.8 | The three main heads under equity and liabilities are: 1. Shareholders' Funds Example of sub-heading: Share Capital 2. Non-Current Liabilities Example of sub-heading: Long-Term Borrowings 3. Current Liabilities Example of sub-heading: Trade Payables | 3 |
| Ans.9 | 1. Surplus i.e., Balance in Statement of profit & Loss (Dr.)- Head: Shareholders’ Fund; Sub-heading: Reserve and surplus (As negative amount). 2. Interest accrued and due on Debentures.: Head-Current Liabilities; Sub-heading Other Current Liabilities. 3. Arrears of dividends on Cumulative Preference Shares: As contingent liabilities and is disclosed in the Notes to Accounts. | 3 |
| Ans.10 | Total Revenue = ₹8,00,000 + ₹50,000 = ₹8,50,000 Total Expenses = ₹2,00,000 + ₹60,000 + ₹40,000 = ₹3,00,000 | 3 |

WORKSHEET-20

CHAPTER: ANALYSIS OF FINANCIAL STATEMENT

SUB TOPICS: IMPORTANCE AND LIMITATIONS OF FINANCIAL STATEMENT ANALYSIS

Time allowed: 20 minutes

Max. Marks-20

| S.NO. | QUESTION | MARKS |
|--------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------|
| 1 | Analysis of Financial Statements is useful and significant to different users. Which of the following users is particularly interested in the firm's ability to meet their claims over a very short period of time? (A) Labour Unions (B) Trade Payables (C) Top Management (D) Finance Manager | 1 |
| 2 | Which of the following is a key limitation of financial statement analysis? (a) Provides a comprehensive view of future performance. (b) Ignores qualitative factors like management efficiency. (c) Always reflects real economic performance accurately. (d) Is a static snapshot in time, failing to capture long-term trends. | 1 |
| 3 | Financial statements, based on historical costs, fail to account for: (a) Current market values. (b) The effects of inflation. (c) The efficiency of management. (d) The impact of government regulations. | 1 |
| 4 | Which of the following statements is INCORRECT regarding the limitations of financial statement analysis? (a) Data manipulation can obscure the true financial position. (b) Analysis is always objective and free from personal bias. (c) Financial statements are a snapshot of the company's performance at a specific point in time. (d) Subjective accounting estimates can impact analysis accuracy. | 1 |
| 5 | Which of the following is NOT a limitation of financial statement analysis? (a) It's based on historical data. (b) It can be manipulated to portray a favorable picture. (c) It provides a complete view of the company's financial health. (d) It relies on subjective estimates. | 1 |
| 6 | _____ is not a limitation of financial statement analysis. (a) To measure the financial strength (b) Affected by window-dressing (c) Do not reflect changes in the price level (d) Lack of qualitative analysis | 1 |
| 7 | Which of the following can be called very important in terms of the financial statements? a) The report regarding ethics of the organization b) The list of holidays in the organization | 1 |

| | c) Cash flow statement, balance sheet and the income statement d) List of investors for the organization | | | | | | | | | | | | | | | | | | | |
|--------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|------------|------------|-------|-----------|-----------|--------------------|----------|----------|--------------|----------|----------|--------------------|----------|----------|------------|----------|----------|---|
| 8 | Why is financial statement analysis essential for management? A) To determine employee salaries B) To evaluate marketing strategies C) To make informed decisions about resource allocation and strategic planning D) To predict competitor actions | 1 | | | | | | | | | | | | | | | | | | |
| 9 | What is the primary benefit of financial statement analysis for investors? A) To determine the company's market share B) To evaluate the company's management team C) To assess the company's financial health and potential for returns D) To predict future market trend | 1 | | | | | | | | | | | | | | | | | | |
| 10 | Financial statement analysis helps creditors to: A) Determine the company's market value B) Evaluate the company's product offerings C) Assess the company's creditworthiness and ability to repay debts D) Predict future industry trends | 1 | | | | | | | | | | | | | | | | | | |
| 11 | ABC Corporation is using financial statement analysis to compare its performance with its competitors in the industry. However, despite ABC's higher profitability, it is struggling with slow payments from customers, impacting its cash flow. The company has strong profit margins but relatively low cash reserves. What limitations of financial statement analysis might ABC Corporation face in this scenario? How can these limitations affect the decision-making process? | 3 | | | | | | | | | | | | | | | | | | |
| 12 | MNO Ltd. is a public company that has recently issued new shares to raise capital for an acquisition. Investors are analyzing the company's financial statements to determine whether it's a good investment. The company has shown steady revenue growth but has high operating expenses and significant long-term debt. Explain how financial statement analysis can help stakeholders assess a company's financial health and performance. | 3 | | | | | | | | | | | | | | | | | | |
| 13 | ABC Manufacturing Co. has reported the following figures for the past two years: <table> <thead> <tr> <th>Item</th><th>Year 1 (₹)</th><th>Year 2 (₹)</th></tr> </thead> <tbody> <tr> <td>Sales</td><td>10,00,000</td><td>12,00,000</td></tr> <tr> <td>Cost of Goods Sold</td><td>6,00,000</td><td>7,20,000</td></tr> <tr> <td>Gross Profit</td><td>4,00,000</td><td>4,80,000</td></tr> <tr> <td>Operating Expenses</td><td>2,00,000</td><td>2,40,000</td></tr> <tr> <td>Net Profit</td><td>1,00,000</td><td>1,20,000</td></tr> </tbody> </table> How can vertical and horizontal analysis be used to assess ABC Manufacturing Co.'s performance over the two years? | Item | Year 1 (₹) | Year 2 (₹) | Sales | 10,00,000 | 12,00,000 | Cost of Goods Sold | 6,00,000 | 7,20,000 | Gross Profit | 4,00,000 | 4,80,000 | Operating Expenses | 2,00,000 | 2,40,000 | Net Profit | 1,00,000 | 1,20,000 | 4 |
| Item | Year 1 (₹) | Year 2 (₹) | | | | | | | | | | | | | | | | | | |
| Sales | 10,00,000 | 12,00,000 | | | | | | | | | | | | | | | | | | |
| Cost of Goods Sold | 6,00,000 | 7,20,000 | | | | | | | | | | | | | | | | | | |
| Gross Profit | 4,00,000 | 4,80,000 | | | | | | | | | | | | | | | | | | |
| Operating Expenses | 2,00,000 | 2,40,000 | | | | | | | | | | | | | | | | | | |
| Net Profit | 1,00,000 | 1,20,000 | | | | | | | | | | | | | | | | | | |

HINT ANSWERS – WORKSHEET-20

| HINTS | | | | | |
|--------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|-----|----------|-----|
| 1 | (B) | 2 | (b) | 3 | (b) |
| 4 | (b) | 5 | (C) | 6 | (a) |
| 7 | (C) | 8 | (C) | 9 | (C) |
| 10 | (C) | | | | |
| 11 | 1. Historical Data: 2. Accounting Policies: 3. Manipulation: 4. Ignores Qualitative Factors: 5. Comparison Challenges: 6. Inflation and Price Changes | | | | |
| 12 | 1. Informed Decision-Making: 2. Financial Health Assessment: 3. Performance Evaluation: 4. Comparison and Benchmarking: 5. Risk Identification: 6. Creditworthiness Assessment: 7. Investment Decisions: 8. Management Decision-Making: | | | | |
| 13 | <p>In vertical analysis, each line item is expressed as a percentage of a base item (typically sales or total revenue). For example:</p> <ul style="list-style-type: none"> • Year 1: Gross Profit = $(4,00,000 / 10,00,000) \times 100 = 40\%$ Operating Expenses = $(2,00,000 / 10,00,000) \times 100 = 20\%$ Net Profit = $(1,00,000 / 10,00,000) \times 100 = 10\%$ • Year 2: Gross Profit = $(4,80,000 / 12,00,000) \times 100 = 40\%$ Operating Expenses = $(2,40,000 / 12,00,000) \times 100 = 20\%$ Net Profit = $(1,20,000 / 12,00,000) \times 100 = 10\%$ <p>Conclusion from Vertical Analysis: The relative proportions of each item (gross profit, operating expenses, and net profit) remain constant between Year 1 and Year 2, indicating stable performance in terms of cost management and profitability.</p> <p>In horizontal analysis, we analyze the changes in the figures over time, typically showing the absolute or percentage change from one period to another. The formula is: Percentage Change = $\frac{\text{Current Year} - \text{Base Year}}{\text{Base Year}} \times 100$ For each item:</p> <ul style="list-style-type: none"> • Sales: $12,00,000 - 10,00,000 / 10,00,000 \times 100 = 20\%$ increase • Cost of Goods Sold: $7,20,000 - 6,00,000 / 6,00,000 \times 100 = 20\%$ increase • Operating Expenses: $2,40,000 - 2,00,000 / 2,00,000 \times 100 = 20\%$ increase • Net Profit: $1,20,000 - 1,00,000 / 1,00,000 \times 100 = 20\%$ increase <p>Conclusion from Horizontal Analysis: The company's sales, costs, expenses, and net profit all increased by 20%, suggesting growth but no significant improvement in cost control or operational efficiency. The company maintained its performance but did not make any significant changes in profitability margins.</p> | | | | |

|-------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|
| 1. | Assertion (A): Ratio analysis helps to simplify accounting information for various users. Reason (R): Various types of ratios help to make comparative analysis. Options: a) Both A and R are true, and R is the correct explanation of A. b) Both A and R are true, but R is not the correct explanation of A. c) A is true, but R is false. d) A is false, but R is true. | 1 |
| 2. | When Current Ratio is 4: 1, Current Assets are Rs.60,000 and Quick Ratio is 2.5: 1, the amount of 'Inventory' will be: a) Rs.22,500 b) Rs.37,500 c) Rs.15,000 d) Rs.25,000 | 1 |
| 3. | Assertion (A): Total Assets to debt ratio indicates the operating efficiency of business. Reason (R): It is calculated to estimate the firm's ability to pay long term debts. Options: a) Both A and R are true, and R is the correct explanation of A. b) Both A and R are true, but R is not the correct explanation of A. c) A is true, but R is false. d) A is false, but R is true | 1 |
| 4. | What will be the impact of issuing Rs 5, 00,000 equity shares to vendor for building purchased on the debt and equity of X Ltd? a) Debt will increase and equity will decrease. b) Debt will remain same and equity will increase. c) Debt will decrease and equity will decrease. d) Debt will remain same and equity will increase. | 1 |
| 5. | Which of the following are included in traditional a classification of ratios? (i) Liquidity ratios. (ii) Statement of profit and loss ratios. (iii) Balance sheet ratios. (iv) Profitability ratios. (v) Composite ratios (vi) Solvency ratios. | 1 |

| | | |
|-----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---|
| | Codes: (a) (ii), (iii) and (v) (b) (i), (iv) and (vi) (c) (i), (ii) and (vi) (d) All (i), (ii), (iii), (iv), (v), (vi) | |
| 6. | The of a business firm is measured by its ability to satisfy its short-term obligations as they become due a) Activity b) Liquidity c) Debt d) Profitability | 1 |
| 7. | The current ratio of a company is 2.5:1. Which of the following transactions would improve, reduce and not change it: (i) Purchase of goods on credit. (ii) Sale of goods costing 10,000 for 12,000 on credit. (iii) Selling a fixed asset at loss. | 3 |
| 8. | Calculate Proprietary Ratio, if Total assets to Debt ratio is 2:1. Debt is 5,00,000. Equity Share Capital is 0.5 times of debt. Preference Share Capital is 25% of Equity Share Capital Net profit before tax is 10,00,000 Rate of tax is 40% | 3 |
| 9. | Assuming that the Debt Equity Ratio is 2. State giving reasons whether this ratio would increase, decrease or remain unchanged in the following cases: a) Purchased of fixed asset on a credit of 2 months b) Purchased of fixed asset on a long-term deferred payment basis c) Issue of new shares for cash d) Issue of bonus shares | 4 |
| 10. | A) Vardhman Ltd has a term – loan of Rs 20, 00,000. Interest on the loan for the year is Rs2, 50,000 and its profit before interest and tax is Rs 10, 00,000. Calculate interest coverage ratio. B) Calculate debt equity ratio from the following information. Total Assets Rs 3, 50,000 Total debt Rs 2, 50,000 and current liabilities Rs 80,000 | 4 |

HINT ANSWERS – WORKSHEET-22
