

EXPOSURE VISIT

ACTIVITIES CONDUCTED

- EXPOSURE VISIT TO CSIR- CENTRAL LEATHER RESEARCH INSTITUTE
- EXPOSURE VISIT TO PERIYAR SCIENCE AND TECHNOLOGY CENTRE

IMPACT ON STUDENTS

- The exposure visit provided students with real time practical experiences.
- It made students understand how learning more engaging, practical, and relevant.
- They understood how the leather processing is done and different leather goods are made.
- They enhanced their curiosity about science and technology and got knowledge on various mathematical and scientific models

IMPACT ON PARENTS

- The parents also believed that exposure visit has enhanced their wards critical thinking skills.
- The parents noticed that their wards got more practical knowledge on various models and how they observed and obtained real time experiences
- The parents were satisfied with the efforts made by the school in providing enhanced learning experiences to the students.
- The parents were happy to see the reinforcement of classroom concepts through different field trips.
