

**PM SHRI KV AFS RAJOKRI**  
**Sports Infrastructure (play Fields)**

Sports infrastructure is a crucial component of a well-rounded educational environment, providing students with the necessary facilities to engage in physical activities, develop their athletic skills, and maintain a healthy lifestyle.

A well-maintained and adequately equipped play field is an integral part of a school's sports infrastructure. It not only supports the physical and mental well-being of students but also plays a crucial role in their overall development and academic success. Investing in high-quality sports infrastructure is essential for nurturing young talent and promoting a healthy, active lifestyle among students.
