

PM SHRI KV AFS RAJOKRI Building As Learning Aid

BALA is a way to holistically plan and use the school infrastructure. It incorporates the ideas of activity based learning, child friendliness and inclusive education for children with special needs (CWSN). At the core, it assumes that the architecture of school can be a resource for the teaching-learning processes.

Since buildings are the most expensive physical assets of a school, efforts should be made in Vidyalaya to derive maximum educational value from them. Thus, BALA is about exploring uniqueness of three dimensional space as a child friendly learning resource for all children. Keeping this in view, The talented teachers of our Vidyalaya put in their best efforts to paint the Vidyalaya internal walls as per BaLA concepts in the month of March, to give a new surprise & excitement to our tiny tots in the beginning of new session in April month.
