

SH. AVNEESH KUMAR PATHAK, PRINICIPAL SIR

Primary education is typically the first stage of formal education, coming after preschool and before secondary school. Many students have missed their preschool due to pandemic. Today, the role of a school is not only to pursue academic excellence but also to motivate and empower its students to be lifelong learners, enthusiastic, inquisitive, critical thinkers and productive members of an ever changing global society. The talents, skills, and abilities of each student need to be identified, nurtured and encouraged so that he/she is able to reach greater heights.

With our newsletter, students are provided with a platform to think, express and exhibit their skills and talents. Converting every child into a self-reliant and confident, the school provides fusion of scholastic and co-scholastic activities.

Primary teachers at our Vidyalaya try their best to provide relevant educational experiences to children that nurture their hobbies, interests problem solving abilities, and higher level thinking skills, including critical thinking and creativity.

My best wishes to all of you.

Kendriya Vidyalaya is a pioneer institution in the field of education. CMP was started to take special care of the primary children and to give them the best environment to learn. These activities play an important role to extract the hidden qualities of students and unfold their potentials. This newsletter is an attempt to share the steps we are taking to implement CMP in our institution. I extent my best wishes to the primary department on release of this issue of Newsletter and believe that under the able guidance of HM Smt. Monika Sharma, we will surely succeed in laying a strong foundation to our budding tiny tots.

All the best!

Smt. MONIKA SHARMA, HEAD MISTRESS

Watch them discover. Encourage their
questions. Allow them to struggle. Support
their thinking and let them fly.*
