

India AI Tinkerpreneur 2025

An AI Powered Summer Bootcamp

AIM TO INNOVATE

India AI Tinkerpreneur 2025

India AI Tinkerpreneur is a unique national level summer bootcamp that equips school students (in classes 6 to 12 and beyond) with skills in the usage of AI tools and technologies, and empowers them to build their own AI-enabled products and solutions to create social-impact.

Initiated in collaboration between **Atal Innovation Mission, NITI Aayog and Intel India**, the bootcamp aims to nurture a future where technology becomes a catalyst for positive change, and fosters innovation, creativity, and problem-solving skills, using AI tech & social skills in an inclusive way.

AI and Entrepreneurial Skills

The bootcamp aims to empower students with various AI-based technological skills, enabling them to ideate, build, and launch AI-powered social impact solutions that address real-world problems.

Learning Roadmap

Getting started

India AI Tinkerpreneur is open to all Indian students in classes 6 to 12 and beyond

This is for young learners / students who:

- are curious, creative, and eager to explore technology
- have ideas to solve real-world problems
- want to learn how to develop a solution
- are first-time coders, designers, or innovators
- want to build something from scratch
- are passionate about leveraging AI for design and innovation

Register at AI Student Community from June 11, 2025 and join India AI Tinkerpreneur 2025

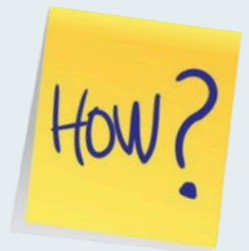

Attend a series of online sessions and master classes conducted by Intel Experts, Mentors, Industry Leaders and Tinker Champs

Take a Quiz after attending each session

Attend 8 out of 10 sessions and complete 80% of the quizzes to be eligible for a Participation Certificate

- Gain hands-on experience with AI concepts and tools
- Learn how to leverage AI to build an entrepreneurial plan
- Build and plan the launch of your own AI-based startup idea
- Get mentored by Intel experts, mentors of AIM, industry leaders and Tinker Champs on emerging technologies and skills
- Collaborate with peers across India
- Access to opportunities to present projects at national / international level
- Opportunity to receive certification from AIM, NITI Aayog and Intel

Top 2 projects from each state will get special recognition and
Top 100 student-teams will get special mentorship from ISB

No prior experience with AI required.
All you need is internet access, a laptop or computer, and the enthusiasm to learn and create.
