Best Educational Practices Of Dehradun Region

Nestled in the foothills of Himalayas, we see ourselves as the reservoir of academic, social, cultural and environmental values that are reflected in the practices adopted in our KVs .

Keeping these values in its focus, our best practices revolve around the objectives of NCF, NEP and mission of KVS whose epicentre is Holistic Development of our learners.

केन्द्रीय विद्यालय संगठन

The glimpses of the practices which we deem as our best are reflected in upcoming slides.

Initiatives in Primary Education

New strategies and teaching methods especially playway methods, activity based learning using Jadui pitara can promote learning and actively stimulate childrens natural thirst for knowledge.

Class Library & Reading Corner

In order to develop interest in reading we have established class libraries and reading corners in primary section.

Add a headingClass library which is the miniature library fosters reading aptitude and attitude among our tiny tots.

Attainment Of NIPUN Lakshya

In order to attain NIPUN Lakshyas different pedagogical practices are being adopted at primary level.

Parents As Parteners In Learning

In case of primary education, the role of parents in their formative years is indispensable. We involve parents as partners in learning for our young learners so that they can learn and understand the things easily.

Developing Mathematical Aptitude

Using garden for teaching mathematics gives students hands on interactions with the theories and provide them with a fun experience which is long lasting.

Science , ICT Based Learning

We aim at developing scientific temperament and practical skills among the learners which ensures lifelong learning

Robotics and Astronomy

Having STEM lab in some KV's that promotes knowledge of ROBOTICS and Astronomy helps our students immerse in the celestial wonders providing an unprecedented and interactive exploration of the COSMOS.

Inclusive Education

We ensure that education in our KVs encompasses the teaching learning environment which is welcoming and supports divergent learners regardless of learning styles , abilities and disabilities

Vocational Education

We create a space for channelising the energy of the students by providing them adequate opportunity to express themselves fully in an inclusive, equitable environment through vocational education.

“

Thank You
