## MATHEMATICS

1. A plane has 36 passengers. At the next stop, 12 passengers get down and 8 new passengers get in. How many passengers are on the plane now?
2. On a world map, 1 cm = 1,000 km. The distance between two countries is 5 cm. What is the real distance in kilometers?
3. A train journey is 450 km long. It has already traveled 275 km. How much distance is left to reach the destination?

4. A family plans to visit 4 countries. They spend 3 days in each country.  
How many days will the whole trip take?

5. A group of 20 students is going on a world tour. They are divided into equal groups of 5.  
How many groups are formed?

## **TWAU**

### **Section A: Knowledge & Understanding**

**What is a journey? Why do people travel?**

**Name any two countries you would like to visit.**

**What are the different modes of transport used for long journeys?**

**What is a map? How does it help us?**

### **Section B: Observation & Thinking**

**If you travel from India to another country, what things will you carry in your bag? (Name 3–4 items)**

**What differences do you think you will see in food and clothes in other countries?**

**Why do we need a passport while travelling abroad?**

**How is travelling by aeroplane different from travelling by train?**

### **Section C: Activity-Based**

**Draw your favorite country and color its flag.**

**Make a simple travel ticket (bus/train/flight).**

**Draw and label any one mode of transport.**

**Paste or draw pictures of foods from different countries.**
