## 1) Plan Your Dream Trip

You are going to visit 3 countries. Each country costs ₹4,500 to travel.

What is the total cost of your trip?

If you have ₹15,000, how much money will be left?

## 2) Design Your Travel Bag

Draw 5 items you will carry (clothes, shoes, books, etc.).

Assign weight to each item (in kg).

What is the total weight of your bag?

Is it under the 15 kg limit?

## 3) Create Your Own Travel Map

Draw a simple map showing 3 places you visit.

Assume distances between them (like 100 km, 200 km).

What is the total distance you travel?

## 4) Travel Time Puzzle

You start your journey at 9:00 AM.

Travel for 2 hours by bus

Rest for 30 minutes

Travel again for 1 hour

What time will you reach your destination?

## 5) My Travel Budget Chart

Food: ₹200

Travel: ₹1,000

Shopping: ₹500

Stay: ₹1,500

Find total expense

Which item costs the most?
