Artificial Intelligence

Project Title: Design Panels: How AI Solves a Real-Life Problem

Create a set of panels (like a comic strip) showing how an AI system solves a real-life problem. Your idea can be simple, creative, or even futuristic. You can choose from the following topics or think your own:

- Homework Reminder AI
- Elderly Care AI
- Smart Dustbin AI
- Smart Attendance AI
- Screen Time Control AI
- Lost Item Finder AI

Project Guidelines

What You Have to Do

- A cover page with your name, class, section and roll number
- Create 6–8 panels
- Use A4 sheets only (max 2 sheets)
- Not more than 4 panels per sheet

Your Panels Must Show

- The problem
- Who is affected
- Your AI solution
- Input → Process → Output
- AI Domain (CV / NLP / Data) with reason

Keep in Mind

- Take inspiration from comics or graphic stories
- Use drawings, colors, and clear labels
- Keep writing short
- Be creative
