

DIGITAL LANGUAGE LAB

The digital language lab is an integral part of the digital library.

Vidyalaya's digital library is a collection of digital resources, including texts, images, videos, and other materials, that are made available online for access and use.

It is a specialized digital resource that focuses on language learning and teaching, often including interactive materials, software, and tools.

In fact, there is a large digital library that provides users with a range of language learning resources and tools alongside other digital materials.

The digital library provides:

- Online access to resources
- Interactive materials
- Multimedia content
- User authentication and authorization
- Analytics and reporting tools
