

केन्द्रीय विद्यालय संगठन, बेंगलुरु क्षेत्र
KENDRIYA VIDYALAYA SANGATHAN, BENGALURU REGION
प्रथम प्री-बोर्ड परीक्षा 2024-2025
FIRST PRE-BOARD EXAMINATION 2024-2025

CLASS: XII
SUB: INFORMATICS PRACTICES

MAX MARKS: 70
TIME: 3 HRS

General Instructions:

- Please check this question paper contains 37 questions.
- All questions are compulsory. However, internal choices have been provided in some questions. Attempt only one of the choices in such questions
- The paper is divided into 5 Sections- A, B, C, D and E.
- Section A consists of 21 questions (1 to 21). Each question carries 1 Mark.
- Section B consists of 7 questions (22 to 28). Each question carries 2 Marks.
- Section C consists of 4 questions (29 to 32). Each question carries 3 Marks.
- Section D consists of 2 case study type questions (33 to 34). Each question carries 4 Marks.
- Section E consists of 3 questions (35 to 37). Each question carries 5 Marks.
- All programming questions are to be answered using Python Language only.
- In case of MCQ, text of the correct answer should also be written.

| Q No. | Section-A (21 x 1 = 21 Marks) | Marks |
|-------|---|-------|
| 1 | State whether the following statement is True or False: Series are size and value mutable. | 1 |
| 2 | With respect to databases, a field in a relation is also known as a/an _____. a. Record b. Tuple c. Attribute d. Degree | 1 |
| 3 | Which among the following hardware devices is capable of connecting networks belonging to different network protocols? a. Modem b. Repeater c. Hub d. Gateway | 1 |
| 4 | Pick the odd one out of the following? a. update b. select c. drop d. delete | 1 |
| 5 | Which among the following is not an impact of e-waste on the environment? a. Global Warming b. Deforestation | 1 |

| | | |
|----|--|---|
| | <ul style="list-style-type: none"> c. Soil erosion d. Heavy metals in water and soil | |
| 6 | <p>Which of the following command is used to display first three rows of a DataFrame 'DF' ?</p> <ul style="list-style-type: none"> a. DF.head() b. DF.header() c. DF.head(3) d. DF.Head(3) | 1 |
| 7 | <p>Which of the following is used to save a graph plotted using matplotlib.pyplot library?</p> <ul style="list-style-type: none"> a. savefigure() b. savegraph() c. savefig() d. None of the above | 1 |
| 8 | <p>State whether the following statement is True or False: The Order By Clause in SQL helps to permanently sort and save the contents in a table of a database.</p> | 1 |
| 9 | <p>Which of the following functions is used to import a dataframe from csv file?</p> <ul style="list-style-type: none"> a. read_csv() b. import_csv() c. to_csv() d. export_csv() | 1 |
| 10 | <p>The practice of sending fraudulent communications that appears to come from a reputable source. It is usually done through email. The goal is to steal sensitive data like credit card and login information.</p> <ul style="list-style-type: none"> a. Bullying b. Plagiarism c. Phishing d. Licensing | 1 |
| 11 | <p>Which SQL statement do we use to find the total salary of all the employees from Employee table?</p> <ul style="list-style-type: none"> a. SELECT * FROM Employee; b. SELECT COUNT (Salary) FROM Employee; c. SELECT SUM (Salary) FROM Employee; d. SELECT SUM () FROM Employee; | 1 |
| 12 | <p>Which among the following topology has Central Node dependency?</p> <ul style="list-style-type: none"> a. Bus b. Star c. Tree d. Mesh | 1 |

| | | |
|----|---|---|
| 13 | Which among the following method is used to remove a row or column from a given DataFrame? a. del() b. delete() c. drop() d. None of the above | 1 |
| 14 | Violation of intellectual property right may happen by a. Plagiarism b. Copyright Infringement c. Trademark Infringement d. All the above | 1 |
| 15 | Which of the following command will display the row labels of the DataFrame? a. print(df.index()) b. print(df.rows()) c. print(df.index) d. print(df.rows) | 1 |
| 16 | Consider the following query SELECT * FROM employee ORDER BY salary _____, name _____; To display the salary from largest to smallest and name in alphabetical order which of the following options should be used? a. Ascending, Descending b. Asc, Desc c. Desc, Asc d. Descending, Ascending | 1 |
| 17 | With _____ function of pandas module you can iterate over dataframe row-wise where each rows values are returned in form of a series type object. a. iterrows() b. iteritems() c. iteraterow() d. IterRows() | 1 |
| 18 | Which is the default position of legends in a graph? a. upper left b. upper right c. lower left d. lower right | 1 |
| 19 | Name the type of network which is formed by connecting two smart phones? a. WAN b. LAN | 1 |

| | | |
|--------------|---|--------------|
| | c. MAN d. PAN | |
| | Q-20 and Q-21 are Assertion (A) and Reason (R) Type questions. Choose the correct option as: a. Both Assertion (A) and Reason (R) are true, and Reason (R) is the correct explanation of Assertion (A) b. Both Assertion (A) and Reason (R) are true, but Reason (R) is not the correct explanation of Assertion (A) c. Assertion (A) is True, but Reason (R) is False d. Assertion (A) is False, but Reason (R) is True | |
| 20 | Assertion (A): The attribute loc of dataframe can be used to add new rows and columns. Reason (R): In a dataframe new rows and columns can be added after creating a dataframe. | 1 |
| 21 | Assertion (A): The ALTER TABLE query can be used to add a column in a table. Reason (R): ALTER is a DML query and is used to make changes in the table design. | 1 |
| Q No. | Q No. Section-B (7 x 2 = 14 Marks) | Marks |
| 22 | A. What is a Series in Python Pandas? Which module you need to import in your program to create a Series? [OR] B. Name the module to which the following functions belong to: (i) hist() (ii) DataFrame() | 2 |
| 23 | What is open-source software? Give an example of an open-source programming language. | 2 |
| 24 | Consider the string: "First Pre Board Examination 2024". Write suitable SQL queries for the following: a. To extract and display the string "Exam" from the above string. b. Display the entire string in upper case. | 2 |
| 25 | A. What is the difference between website and a web page? [OR] B. Give an example for a commonly used browser? What are add-ons in a browser? | 2 |
| 26 | Differentiate between primary key and alternate key with respect to a table in SQL? | 2 |
| 27 | Your friend has used a poetry written by you and posted online claiming her own. i. What is the cybercrime mentioned above? | 2 |

| | | |
|-------------|---|--------------|
| | ii. Which Information Technology act violation has been committed by her? | |
| 28 | <p>A. Manav is writing a Python program to create a DataFrame using a list of dictionaries. However, his code contains some mistakes. Help him to identify the errors, rewrite the correct code, and underline the corrections made.</p> <pre>import Pandas as pd D1={"Country":"USA","Medals":126} D2={"Country":"China","Medals":91} D3=["Country":"India","Medals":6] D=[D1,D2,D3] Olympics=pd.DataFrame(d) print(Olympics)</pre> <p style="text-align: center;">[OR]</p> <p>B. Complete the given Python code to get the required output (ignore the dtype attribute) as:</p> <pre>Science 121 Commerce 50 Humanities 34 Arts 40 import _____ pd data=[121,50,34,40] values=["Science", "_____", "Humanities", "Arts"] S=pd.Series(data,index=_____) print(_____)</pre> | 2 |
| Q No | Q No Section-C (4 x 3 = 12 Marks) | Marks |
| 29 | <p>A new mall in the city has launched a new range of smartphones creating a buzz among technology enthusiasts. However, the introduction of these new devices has also raised concerns about the increasing generation of e-waste in the community.</p> <p>Answer the following questions based on above extract :</p> <ol style="list-style-type: none"> Define e-waste. Give any one environmental challenge posed by e-waste, including its impact on air, water, and soil quality. Imagine you are a part of a local environment organization. Provide any two strategies that could be implemented to minimize the negative environmental effects of e-waste. | 3 |
| 30 | A. Write a Python program to create the following DataFrame using a list of dictionaries. | 3 |

| | Sportsid | SportsName | Region |
|---|----------|------------|---------|
| 0 | 1001 | Cricket | Agra |
| 1 | 1020 | Football | Lucknow |
| 2 | 1031 | Swimming | Delhi |

[OR]

- B. Write a Python Program to create a Pandas Series "Houses" as shown below using a dictionary. Note that the left column indicates the indices and the right column displays the data.

| | |
|---------|-----|
| Shivaji | 500 |
| Tagore | 525 |
| Ashoka | 512 |
| Raman | 526 |

31

- I. Write an SQL statement to create a table named TEACHER, with the following specifications:

| Column Name | Data Type | Constraint |
|-------------|-------------|-------------|
| Tid | int(10) | primary key |
| Tname | Varchar(20) | not null |
| Dept | Varchar(20) | |
| DOJ | Date | not null |
| Salary | int(10) | |

- II. Write SQL Query to insert the following data in the Teachers Table

2825, Minaxi Prasad, Science, 2010-09-28, 75000

3

32

- A. Consider the following tables given below:

Table: Trainer

| Tid | Tname | City | Salary |
|-----|---------|--------|--------|
| 101 | SUNITA | MUMBAI | 8000 |
| 102 | ANAMIKA | DELHI | 9000 |
| 103 | VARUN | MUMBAI | 7000 |

Table: Course

| Cid | Cname | Fees | Startdate | Tid | discount |
|-------|-------|-------|------------|-----|----------|
| 10001 | PGDCA | 12000 | 2018-10-15 | 101 | 500 |
| 10002 | DCA | 5000 | 2018-05-17 | 101 | |
| 10003 | CCNA | 9000 | 2019-05-20 | 102 | 300 |
| 10004 | CCNA | 13000 | 2020-10-01 | 103 | |
| 10005 | PGDCA | 15000 | 2018-10-10 | 103 | 400 |

Write appropriate SQL queries for the following:

- I. Display Course name-wise total Fees.
- II. List all trainer names in the decreasing order of Salary.

III. Display Course name along with their corresponding Trainer Names.

[OR]

B. Write the outputs of the SQL queries (i) to (iv) based on the relations Teacher and Placement given below:

Table : Teacher

| T_ID | Name | Age | Department | Date_of_join | Salary | Gender |
|------|----------|-----|-------------|--------------|--------|--------|
| 1 | Arunan | 34 | Computer Sc | 2019-01-10 | 12000 | M |
| 2 | Saman | 31 | History | 2017-03-24 | 20000 | F |
| 3 | Randeep | 32 | Mathematics | 2020-12-12 | 30000 | M |
| 4 | Samira | 35 | History | 2018-07-01 | 40000 | F |
| 5 | Raman | 42 | Mathematics | 2021-09-05 | 25000 | M |
| 6 | Shyam | 50 | History | 2019-06-27 | 30000 | M |
| 7 | Shiv | 44 | Computer Sc | 2019-02-25 | 21000 | M |
| 8 | Shalakha | 33 | Mathematics | 2018-07-31 | 20000 | F |

Table : Placement

| P_ID | Department | Place |
|------|-------------|-----------|
| 1 | History | Ahmedabad |
| 2 | Mathematics | Jaipur |
| 3 | Computer Sc | Nagpur |

- I. Display Gender wise average salary.
- II. List all teacher names in Upper case.
- III. Display Name of Teacher, Age along with the place of placement.

Q No.

Section-D (2 x 4 = 8 Marks)

Jhanvi needs to compare the medal won by different Countries in the recent Olympics. She needs to create a bar chart for this purpose. Help her to complete the blanks so that the python code for creating the bar chart executes successfully.

This bar chart represents the total number of medals secured by 4 countries in Olympics 2024.

| Country | Medals |
|---------|--------|
| JAPAN | 45 |
| CHINA | 91 |
| INDIA | 6 |
| USA | 126 |

Help Jhanvi to complete the code.

4

```
import _____ as plt #Statement1
X=["JAPAN","CHINA","INDIA","USA"]
Y=[45,91,6,126]
plt.xlabel("COUNTRIES")
plt._____ ("TOTAL MEDALS") #Statement2
plt._____ (X,Y) #Statement3
plt._____ ("Medal Comparison")# Statement 4
plt.show()
```

A. Raj is a Database administrator managing the Databases of his company. He has created the following table Employee. Based on the following table answer the given questions:

Table: Employee

| EmpNo | Name | Gender | Doj | Salary | Dept |
|-------|--------|--------|------------|---------|---------|
| 111 | Sapan | M | 2023-10-12 | 5000.75 | HR |
| 112 | Sunita | F | 2012-06-15 | 7000.54 | Finance |
| 113 | Rohan | M | 2006-05-21 | 8000.36 | Finance |
| 114 | Ratna | F | 2012-05-12 | 8500.57 | HR |
| 115 | Asha | F | 2006-06-16 | 9000.92 | Tech |
| 116 | Raja | M | 2023-04-10 | 5000.55 | HR |

Write the following SQL queries:

- i) Write a SQL query to display the first three alphabets of name in upper case.
- ii) Write a SQL query to display salary rounded to 1 decimal place for all employees who are in HR department.
- iii) Write a query to display the entire details of employee table in descending order of name.
- iv) Write a query to display name, gender and name of the month for all employees who get salary more than 6000.

[OR]

4

B. Neha is running a travel agency. In order to keep track of her daily business activity she has created the following Travel table. Based on the table Travel, write the output of the following SQL queries.

Table name: Travel

| Ticketno | Pname | Source | Destination | seats | cost | DOJ |
|----------|-----------|--------|-------------|-------|------|------------|
| 100001 | RAJAT | BLR | HYD | 2 | 2000 | 2024-09-12 |
| 100002 | OMVIR | MUM | KOL | 3 | 5000 | 2024-08-02 |
| 100003 | SUPRATEEK | BLR | CHE | 3 | 3000 | 2024-09-08 |
| 100004 | AHMED | CHE | HYD | 2 | 2000 | 2024-08-02 |
| 100005 | RAJMAN | MUM | KOL | 4 | 3000 | |
| 100006 | SUJATA | KOL | BAN | 5 | 5000 | 2024-09-21 |
| 100007 | AMAN | HYD | BAN | 2 | 6000 | |
| 100008 | JEESHAN | MUM | HYD | 3 | 5000 | 2024-09-28 |

- i) SELECT Pname from Travel where cost between 5000 and 6000;
- ii) SELECT Source, Destination from Travel where DOJ is NULL;
- iii) SELECT left(Pname,3) from Travel where month(DOJ) =8
- iv) SELECT min(DOJ) from Travel;
