**STRUCTURAL SOUNDNESS CERTIFICATE**

I have inspected the buildings at Thatichetlapalem, Behind Andhra  
Jyothi, Visakhapatnam-16, occupied by **Kendriya Vidyalaya - Waltair**.  
The two buildings are two storied structures with brickwork and plastered on  
both sides with cement mortar. One block runs the Primary section and the  
main block has the remaining classes. As per the information given, the  
buildings are about thirty five years old and there are no signs of any  
impairment in the buildings.

I certify that the buildings are safe and sound.

There is a strong compound wall protecting the campus and is stable.

*M.G.Madhu*

Signature of Structural Engineer.
