Education is an everlasting process involving the unfolding of truth and realization of self which ultimately leads to strengthen the energy of our learners and empower their flight of imagination and creativity . KV VFJ, in this regard meticulously aims at striving hard to inculcate the long cherished 'values' in all children as well as develop life skills to enable them to face the challenges of modern fast changing competitive and globalized world of Information and Technology, with confidence , self – esteem and the head held high along with a smile on their faces .

FROM VICE PRINCIPAL'S DESK

Newsletter is like a mirror which reflects the efforts and hard-work of students and teachers throughout the year. It is about building character and empowering each individual to be an enthusiastic lifelong learner and a global citizen of the future.

As a child's early years are his basic foundation in shaping character, building strength and moral values and making them stand in the queue for the future based leadership, selfless service and personal fulfilment, all these activities of the students are being developed under the CMP for the primary. I wish to achieve the goal of CMP.
