CAREER COUNSELLING

A career counselling session was held in the school for the students. The session aimed to help them understand their abilities, strengths, interests, and personality traits. Experts provided guidance about different career options, subject selection, and future opportunities in various fields.

Students were informed about emerging careers, required qualifications, and skill development. They were encouraged to set clear goals and make informed decisions about their future. The session helped reduce confusion, increased awareness, and boosted students' confidence in planning their career paths.
