The NCC Unit of PM SHRI Kendriya Vidyalaya No. 3, Sagar, functioning under 11 MP Battalion NCC, continued to promote discipline, leadership, patriotism, physical fitness and a spirit of service among its cadets during the academic session 2025–26. The unit comprised 50 cadets, including 21 Second-Year and 29 First-Year cadets.

Throughout the year, regular NCC training and parade activities were conducted under the guidance of Principal Shri Dharmendra Bharadwaj and ANO/ Second Officer Shri Krishnakant Pandey. The cadets received training in drill, physical fitness, map reading, first aid, disaster management, leadership and other essential aspects of NCC.

The cadets actively participated in various institutional and community-oriented activities. Earthquake and fire mock drills were organised to create awareness about disaster preparedness and emergency response. The cadets also participated in rallies and social-awareness programmes, contributing to the development of civic responsibility and community spirit.

An important highlight of the year was the participation of cadets in the Annual Training Camp, where they gained valuable experience in discipline, teamwork, fieldcraft and leadership. The NCC unit also organised a spectacular Republic Day programme and parade, showcasing the discipline and enthusiasm of the cadets.

The unit conducted the “Ek Ped Maa Ke Naam” plantation drive, encouraging environmental awareness and responsibility. An exposure visit to Chanderi provided cadets with an opportunity to learn about the historical heritage of Chanderi, its museum and traditional handloom activities.

The cadets also appeared for the NCC ‘A’ Certificate Examination, marking an important milestone in their NCC journey. Through these activities, the NCC Unit successfully nurtured confidence, discipline, leadership qualities and a strong sense of national service among the cadets.

The school expresses its appreciation to all cadets, teachers and NCC personnel for their enthusiastic participation and contribution to the successful functioning of the NCC Unit.
