

Students of classes VI to X of our Vidyalaya opted for skill based subjects during session 2023 – 24

- **MASK MAKING**

All the students of class VII and VIII were imparted the knowledge of CBSE recommended skill subject ' MASK MAKING ' . Masks play an important role in culture of different societies . Masks are not only an object of Art but they play significant role in rituals , ceremonies , story telling art , dances etc. of a country and specially its tribal regions . As per CBSE guidelines Masks of 10 Indian states were prepared by the students and at the end of the course an exhibition based on MASK MAKING was also arranged in the Vidyalaya premises .

- **ARTIFICIAL INTELLIGENCE**

38 students of Class X , 39 Students of Class IX and all the students of Class VI opted ARTIFICIAL INTELLIGENCE as skill subject . The course develops readiness to understand and appreciate Artificial Intelligence and to apply it in our daily life. Artificial Intelligence enhances knowledge of students by personalizing learning, providing real-time tutoring, assessing skills, creating interactive content, enabling virtual labs, facilitating collaboration, offering career guidance, aiding language learning, improving accessibility, and analyzing educational data for better outcomes.
