

## PM SHRI KENDRIYA VIDYALAYA NO. 3 JALANDHAR CANTT.

### INNOVATION IN VIDYALAYA

Innovation, independent research, constructive activities, Self-expression etc., are some of the Exposure and confidence building activities provided by the science clubs. Students can learn more through the activities and their own experiments and clarify general scientific concepts and build their scientific temperament. The coordination between the classroom and the science clubs help the students to complete their curriculum in a subtle way. Science clubs are sometimes considered as the backbones of the curricular activities in the school.

The students of Science Club were engaged in different activities during their club periods throughout the year.

1. Rajya Stariya Bal Vaigyanik Pradarshani 2023–24 Student Name Vansh Sharma Selected From RO Level And Represented The Chandigarh Region In State Level At Bhuvneshwar.
