## PUSTAKOPAHAR

**Empower the future Nurture the Nature**  
**Donate your Used Text books**

The poster features a central illustration of a tree with three children sitting on its branches, each reading a book. The tree is set on a green hill with small white flowers. The background is a light blue sky.

PUSTAKOPAHAR (Gifting of Books) is a socially relevant activity to promote reuse of books in order to support the cause of preventing/ reducing the act of cutting trees to make books.

Your textbooks have served you well, now let them inspire others. Donate your gently used textbooks and help students access the knowledge they need to succeed and thus be a part of a noble cause!!!

You are requested to handover gently used and neatly covered textbooks (NCERT text books) to your class teachers on 27/3/2024.

The collected books will be distributed to those students who require books

Requesting all to be a part of this social cause
