

PM SHRI KV TAGORE GARDEN

DISASTER MANAGEMENT PLANNING

- PM SHRI KV TAGORE GARDEN not only ensure safety of children in disasters, but will also promote faster rehabilitation post disaster.
- School Safety in PMSHRI KV Tagore Garden is about creating a safe environment for children, starting from their homes to their schools and back. This includes safety from any kind of abuse, violence, psycho-social issue, disaster: natural and manmade, fire, transportation.
- PM SHRI KV Tagore Garden believes that emotional safety is especially important because it is often difficult for teachers and parents to detect emotional problems and difficulties in children.
- PMSHRI KV Tagore Garden is turning no stone unturned to keep the school environment including the school buildings, premises, playgrounds, laboratories, swimming pool, computer rooms, libraries, toilets, drinking water facilities, transport area and the surroundings safe and secure.
- PMSHRI KV Tagore Garden organised workshops to aware office staff, teachers as well as students need to be prepared to respond to any catastrophe, natural or man-made.
- The school has established internal complaint commette to be vigilant and constantly be on the lookout for any forms of child abuse, whether physical, emotional, or sexual. The staff is trained to understand key indicators of child abuse, and be prepared to respond instantly to inappropriate or harmful behaviour.
- The school has framed it's process to be followed for the prevention, preparedness, response, and recovery (PPRR) model of risk management. In matters pertaining to child safety, this model is helping the school administration to be vigilant.
- Since children spend a substantial part of their day in school, it is imperative that the ambience in schools remain positive and nurturing, and student safety is ensured along with the children feeling safe and secure...

Mock Drills: -

Mock drills are conducted time to time to be ready for disaster. At least 3 mock drills were conducted in a year for safe evacuation of children from the building.

Fire extinguisher

Fire extinguishers are set up in all floors and all important points in school building. Fire extinguishers are always filled on time for their effective uses. Students are also given demonstration of their use.

Sand Buckets

Sand Buckets are placed at all strategic points in building. Sand is changed time to time.

Evacuation Plan

School has total 3 exits in secondary building and 5 exits in Primary building. Students are trained to evacuate building from their designated exit points.

Safe Points

Students are trained to evacuate building and reach at safe points in school i.e open area in school.

Safe Drinking Points

School is committed to provide safe drinking water and clean environment to students.
