

INFRASTRUCTURE DEVELOPMENT, CONSTRUCTION AND REPAIR WORKS

Sessions 2024–25 and 2025–26

During the sessions 2024–25 and 2025–26, the Vidyalaya undertook various construction, renovation, repair and infrastructure development works with the objective of improving the safety, functionality, appearance and overall learning environment of the school.

The major works undertaken during the period are as follows:

1. Electrical Repair Work

Work Name: Electrical Repair Work

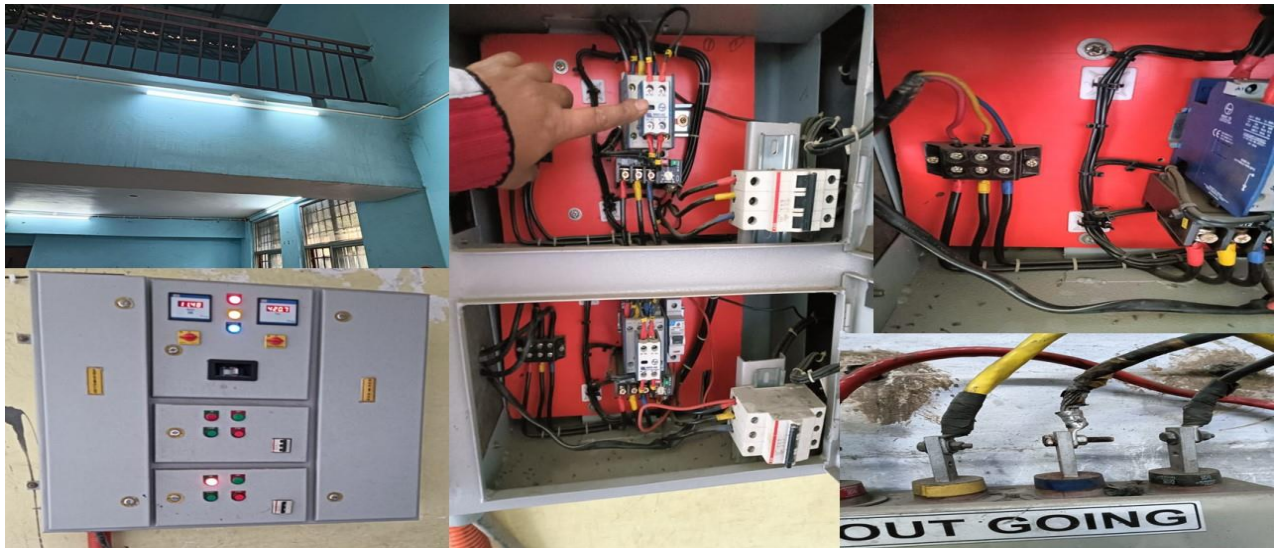

Agency: CPWD (Electrical)

Period: Session 2024–25

Status: Work Completed

Electrical repair and maintenance work was carried out in the Vidyalaya by CPWD (Electrical) during the session 2024–25. The work was undertaken to ensure the proper functioning, safety and maintenance of the electrical infrastructure of the Vidyalaya.

The work has been completed, and the Work Completion Report has been submitted by CPWD (Electrical).

2. Internal and External Structural Repair Work

Work Name: Internal and External Structural Repair Work

Agency: CPWD (Civil)

Period: Sessions 2024–25 and 2025–26

Status: Substantially Completed

Internal and external structural repair work was undertaken by CPWD (Civil) during the sessions 2024–25 and 2025–26. The work included necessary repair and improvement of various internal and external portions of the school building and associated structural surfaces.

The work has been substantially completed, resulting in improvement in the overall condition, appearance, maintenance and functionality of the school building.

The formal Work Completion Report is yet to be submitted by CPWD (Civil).

3. Boundary Wall Raising Work

Work Name: Boundary Wall Raising Work

Agency: CPWD (Civil)

Period: Sessions 2024–25 and 2025–26

Status: Substantially Completed

Boundary Wall Raising Work was undertaken by CPWD (Civil) during the sessions 2024–25 and 2025–26. The work was carried out with the objective of strengthening the boundary infrastructure and further improving the safety and security of the Vidyalaya premises.

The work has been substantially completed by CPWD (Civil). The formal Completion Report is yet to be submitted by CPWD (Civil).

4. Vocational Lab

Work Name: Construction of Vocational Lab

Agency: CPWD (Civil)

Status: Constructed; Formal Handing Over Pending

A Vocational Lab has been constructed in the Vidyalaya by CPWD (Civil) to provide suitable infrastructure for vocational education and skill-based learning.

The construction work has been carried out by CPWD (Civil). However, the facility has not yet been formally handed over to the Vidyalaya.

The formal handing-over of the facility will facilitate its utilization for the intended educational and vocational activities.

5. Ramanujan Maths Garden

Period: Session 2024–25

Status: Completed

A Ramanujan Maths Garden was developed in the Vidyalaya during the session 2024–25.

The Ramanujan Maths Garden provides students with an opportunity to explore and understand mathematical concepts through activity-based and experiential learning in an open and engaging environment.

The facility is being used by students and contributes towards making the learning of Mathematics more interactive, practical and enjoyable.

6. Renovation of School Auditorium

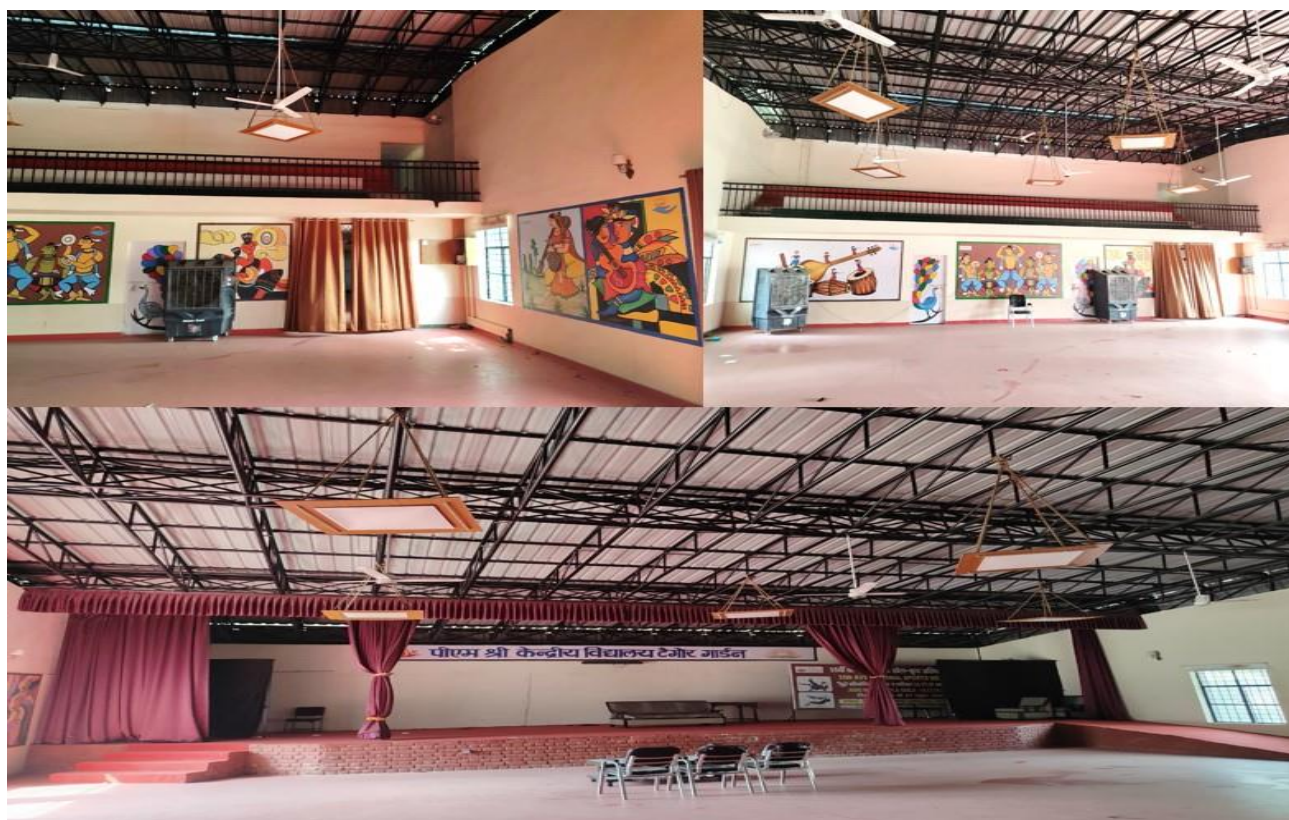

Period: Session 2024–25

Status: Completed

The School Auditorium was renovated during the session 2024–25 to improve its overall condition, functionality and suitability for various school activities.

The renovated auditorium provides an improved space for school assemblies, cultural programmes, workshops, seminars, meetings and other educational and co-curricular activities.

The renovation has enhanced the usability and overall appearance of the auditorium and has provided a more suitable environment for conducting various Vidyalaya programmes.

7. Miscellaneous Construction and Repair Works

In addition to the major works mentioned above, various miscellaneous construction, maintenance and repair works were undertaken in the Vidyalaya during the sessions 2024–25 and 2025–26.

These works were undertaken as required from time to time to maintain the school infrastructure, address maintenance requirements and ensure a safe, functional, clean and conducive environment for students and staff.

Overall Impact

The construction, renovation and repair works undertaken during the sessions 2024–25 and 2025–26 have contributed towards the improvement and upgradation of the physical infrastructure of the Vidyalaya.

These works have supported the Vidyalaya in providing a safer, better-maintained and more functional environment for students and staff. The development of facilities such as the Ramanujan Maths Garden and Vocational Lab, along with the renovation and repair of existing infrastructure, has further strengthened the physical facilities available for academic, vocational, co-curricular and experiential learning activities.

Before and After photographs have been attached wherever applicable to document the improvement brought about through the various works.
