

## **WORK EDUCATION**

Work Education provides the basis for the building up of attitudes towards work. It develops the favorable work values and habits.

Work Education imparts necessary knowledge related to work and develops appropriate work skills which can help the children to become productive in meeting their day to day activities.

### **SCOPE OF WORK EDUCATION**

Work education is an important part of the education.

- 1.**It increases knowledge, observations, moral values and life skills through various physical activities of life.
- 2.**It helps to bridge the gap between the manual workers and white collar workers.
- 3.**It gives respect and dignity to all types of workers.
- 4.**It creates social awareness for the welfare of the society by providing importance to the physical work.

## ACTIVITIES PERFORMED IN WORK EDUCATION
