

Excursion

“Nothing beats exciting hands-on experience to deepen learning. The magic of a field trip isn’t just the subject; it’s the break in routine and adventure that opens up children’s minds to new things.”

The main objective of conducting an Educational Excursion and field trip for students is to reinforce experiential and contextual learning. Further, the school organizes planned visits to various places to enrich the students and to take learning beyond the four walls of the classroom. Field trips are a way of enhancing classroom learning by making real world connections. Travel expands your horizons and school life cannot be complete without the fun of educational tours and excursions.

Aligning with the above stated idea, our Vidyalaya organizes excursions from time to time to enhance the learning experience of students. Recently, students of secondary classes got a chance to visit museum and botanical garden of Tropical Forest Research Institute.
