ART OF 3D CLAY MURAL MAKING

The 3D Clay Mural Making sessions helped our students in understanding the process involved in mural making ie, carving, casting , modeling and construction. Mr Arun Kumar from Pottery Town, Bangalore exposed the students to the intricacies of the 3D visual art of clay mural making.

3D SCREEN PRINTING

Our students received hands-on training in 3D digital screen printing from Mr. Bharanidharan S, a retired KVS Work Experience Teacher. This training provided them with valuable skills in cutting-edge technology, enhancing their practical knowledge and opening new avenues for creativity and innovation in digital printing.

UNLEASHING CREATIVITY WITH CLAY POTTERY MAKING

Under the expert guidance of Mr. Arun Kumar from Pottery Town, Bengaluru our students were taught the age-old art of clay pottery making which not only aided in understanding archaeological artifacts but also helped in gaining an insight into human societies and cultures.

CHANNAPATANNA TOYS *REVIVING THE TRADITIONAL ART OF WOODEN TOY MAKING*

Skilled artisans Umer Sahib and Syed Mazhar from Channapatanna, taught the students the two-century-old traditional art of Channapatna toy making, revitalizing this historic craft and preserving its cultural heritage for future generations.
