

# KENDRIYA VIDYALAYA COOCHBEHAR

## Training Module for Apple iPads & Projectors

### Case 1: Connecting Apple iPad with Apple TV

1. Power on Apple TV & Projector (No Remote Required)
2. Swipe down to view the menu
3. Touch on "Screen Mirroring" And select dedicated Apple TV (ATV###)
4. Enter Airplay code displayed on projector screen (one time for each Apple tab)
5. Connect to nearest/strongest WiFi for internet access

### Case 2: Connecting Android Mobile to EPSON Projector (WiFi Enabled)

1. Install Epson iProjection App using link given below-  
<https://play.google.com/store/apps/details?id=com.epson.iprojection>
2. Detach HDMI/VGA Cable connected to the projector (ignore if not connected)
3. Open your mobile's WiFi Setting, then connect with dedicated Epson Projector (P###)
4. Turn off your mobile network (Data)
5. Open iProjection App and Touch on the same Epson projector shown under Projector section.
6. You may open mobile data after successful connection
7. Select any available mobile sharing option (Mirror Device Screen, Photos, PDF, Web Page, Camera, etc) as per your choice.

### Case 3: Connecting Android Mobile to SONY/EPSON Projector (Without WiFi)

1. Install Mirroring360 Sender Basic App using link given below-  
<https://play.google.com/store/apps/details?id=com.splashtop.m360.tx>
2. Connect Projector to Apple TV using HDMI Cable (ignore if already connected)
3. Connect your mobile and Apple TV to **Common WiFi** Network or your **Mobile Hotspot**

#### Connection through Common WiFi

- i) Press Menu on Apple TV's Remote → Settings→ Network→WiFi (i.e. DLINK3)
- ii) Connect your mobile WiFi to the same network (i.e. DLINK3)

**OR**

#### Connection through Mobile Hotspot

- i) Open Your Mobile's Hotspot (i.e. GPA)
  - ii) Press Menu on Apple TV's Remote → Settings→ Network→WiFi (i.e. GPA)
