

This project is specially for connecting Mathematics in real life , removing phobia of maths.To satisfy common queries in digital age in real sense .Neha Agnihotri developed a blog “nehaagnihotrikv.blogspot.com “ and You tube channel “NEHAKVS “, in which she used **digital India benefits** for sharing work

- (i) **Learning while doing**
- (ii) **Using Mathematics puzzles**
- (iii) **Health in Mathematics**
- (iv) **Test your knowledge**

- **Mathematics based questions from competitions**

Sharing ,Feeling of togetherness ,feeling of oneness- feeling of unity is also coming out during the execution of the project. Bonding increased among students while working in groups .One of the biggest achievement is non lovers of Mathematics are developing love towards the subjects . Importance of the subject is being understood in better manner. They explored : Tables to Multiplication techniques, symmetry to patterns , edges ro corners, sums to calculations. They moved from cramming formulae to real calculations , from classrooms to world, classmates to society .

T

HEALTH-TURMERIC +EQUATIONS. VEDIC MATHS PROJECT IS BRINGING OUT YOUNG MATHEMATICIANS WITH VALUES,ICT ACTIVITIES HEALTH AWARENESS AND LOVE FOR COUNTRY.
