

PM SHRI KENDRIYA VIDYALAYA SECTOR 5, DWARKA (SHIFT-I)

STRATEGIES FOR CALP

1. Measuring the “Gaps”

Adjusting instruction to accommodate children’s learning requirements and focusing on important foundational skills is required.

2. Teaching core skills using “Bridge” content

Bridging is a well-intended strategy of teaching old and new material that focuses on regular review of specific topics.

“Bridge” content, a remedial step, is a different way of dealing with lost learning and ensuring that all students have a strong foundation for future learning.

3. Emphasising content that are prerequisites to future learning

4. Creating a different schedule, reshaping curriculum

5. Being flexible

Teacher should be available to students to clear his / her doubts in the classroom and after school hours.
