conclusion

PM SHRI Kendriya Vidyalaya Tura is committed to providing a joyful, inclusive, and holistic learning environment for every child. Through the effective implementation of PM SHRI initiatives, the school continues to focus on experiential learning, competency-based education, FLN, innovative teaching practices, TLM, toy-based learning, and the development of 21st-century skills. The active participation of students, teachers, parents, and the community has strengthened the school's efforts towards achieving the objectives of NEP 2020 and NIPUN Bharat. The various academic, co-curricular, environmental, and community-oriented activities undertaken during the session have contributed to the overall development of students. With continuous improvement, collaboration, creativity, and a child-centred approach, PM SHRI KV Tura aims to emerge as a model institution that nurtures confident, responsible, creative, and lifelong learners, while providing quality education in a safe and joyful environment.
