

INTRODUCTION

I am Anshuman Dutta, a Primary Teacher in KV No. 2 Kanchrapara. I am an M.A. in English. I joined KVS in the year 2017. Before that I had been working as a primary teacher in a State Govt. school since 2011. I always feel blessed to be a teacher.

MY TEACHING PHILOSOPHY

I believe students learn best when they are actively involved in the learning process. A joyful environment is the best learning situation in the class. Hence I prioritize activity based and play way method of learning where students are encouraged to air their opinion without hesitation. I consider it to be very important to ensure the attention of all the students before entering into a lesson, so that targeted learning outcomes can be truly achieved. For this purpose I prefer toys, puppets, stories or even a simple rhyme with action, which serves the cause effectively. I strongly advocate the theory of experiential learning that emphasizes the process of learning by doing. By engaging students in hands-on experiences and reflection, they are better able to connect theories and knowledge learned in the classroom to real-world situations. I always try to inculcate in my pupils an attitude of enquiry as I think the students should discover the facts on their own in place of readymade solutions. Finally, I believe that the students are the center of teaching-learning process and hence teaching should always be student-centric.

Teacher: SAIMA KAMAL

Designation: PRIMARY TEACHER

INTRODUCTION

My name is Saima Kamal. I hold a degree in Bachelor of Science from CSJMU and have completed additional professional degree in diploma in elementary education. Currently I am a Primary Educator at PM Shri Kendriya Vidyalaya no-2. Kanchrapara and class teacher of 1st A. And also I am Subject teacher of ENGLISH and EVS.

MY TEACHING PHILOSOPHY

My teaching philosophy is grounded in the believe that every student has unique strength, ability and potential for growth. As an educator, I strive to create a supportive and inclusive classroom environment where students feel valued, respected and motivated to learn. I believe in fostering a student centered approach that encourage active participation, critical thinking and enquiry base learning.

Teacher: PRIYANKA

Designation: PRT

INTRODUCTION

My name is Priyanka. I am from Hansi district Hisar, Haryana. I have a postgraduate degree in Economics. I have been appointed as a primary school teacher in the KVS since December 8, 2023. I have a great passion for drawing.

MY TEACHING PHILOSOPHY

I believe that students learn by observing and applying what they see. Therefore, I set the first example for my students myself. On days when I am very energetic in class, they are also very enthusiastic. On days when my enthusiasm is low, theirs is also low. According to me, a teacher who wants to teach some children should not only speak but also behave the same way because children learn more from activities than from spoken words. The knowledge gained through activities stays in their minds for a long time.

Therefore, the following will be the primary priorities of my teaching philosophy:

- Instilling a love for nature in children
- Ensuring holistic development of all children
- Developing moral values
- Developing good qualities towards the school
- Instilling courage in children

TEACHER : AMRITA SHARMA

DESIGNATION: PRT

INTRODUCTION

My name is Amrita Sharma. I have joined KVS as a Primary Teacher on 31st August 2019. My 1st posting was KV Barrackpore Army. I have joined this present school on 12th November 2021. In this new session I am the class teacher of 2A.

MY TEACHING PHILOSOPHY

My philosophy of teaching is to create an environment that allows for supervised exploration. I believe that the most significant learning occurs in situations that are both meaningful and realistic. As a primary teacher my focus is to encourage student-centered learning by allowing students to construct their knowledge through their own experience.

To establish a strong foundation for stimulating learning as a lifelong process I will adopt Experiential learning method, toy-based pedagogy, Gamification, storytelling method etc.

TEACHER: DEEPALI

DESIGNATION: PRIMARY TEACHER

INTRODUCTION

My name is DEEPALI and I'm originally from Prayagraj, Uttar Pradesh. I am a graduated individual with a diploma in elementary education. Joining Kendriya Vidyalaya Sangathan as a primary teacher on December 7, 2023, marks my first job and teaching experience.

I truly enjoy spending time with kids and am always eager to expand my knowledge through new experiences.

MY TEACHING PHILOSOPHY

My teaching style is like being a guide on a fun journey where every child is ready to explore new things. I see my classroom as a special place where learning feels like a great adventure, filled with interesting stories, exciting experiments, and cool projects that make everyone think and laugh together. I believe learning is not just about remembering stuff for tests; it's about getting curious, asking questions and finding out answers in fun ways. This means sometimes we'll learn from books and other times we might learn by playing outside or making something with our hands.

It's really important to me that all my children in class feel happy, safe, and important. We talk about how we feel, learn to listen to each other, and help out when someone needs a hand. This way, we all learn to be good friends and understand how everyone is special in their own way.

MY TEACHING PHILOSOPHY

My philosophy of teaching is that all children are unique and must have a stimulating educational environment where they can grow physically, mentally, emotionally, and socially. It is my desire to create this type of atmosphere where students can meet their full potential. I will provide a safe environment where students are invited to share their ideas and take risks. I believe that there are five essential elements that are conducive to learning.

- (1) The teacher's role is to act as a guide.
- (2) Students must have access to hands-on activities. (3) Students should be able to have choices and let their curiosity direct their learning.
- (4) Students need the opportunity to practice skills in a safe environment.
- (5) Technology must be incorporated into the school day.

NAME: DEEPAK DWIVEDI

DESIGNATION: PRIMARY TEACHER

INTRODUCTION

My name is Deepak Dwivedi and I'm from Sitapur, Uttar Pradesh. I recently joined Kendriya Vidyalaya Sangathan as a primary teacher on December 8th. I have a keen interest in Hindi literature, particularly in reading and writing poetry. For me, Hindi poetry is a source of profound inspiration that adds richness and depth to my life.

MY TEACHING PHILOSOPHY

My teaching philosophy revolves around recognizing the uniqueness of each child and fostering their curiosity. I strive to avoid burdening my students and instead aim to provide them with a delightful learning experience. To achieve this, I employ interactive and engaging teaching techniques such as storytelling, games, and hands-on activities. My goal is to make every lesson interesting so that it sparks the students' curiosity, prompting them to ask questions and explore on their own. I also believe in the power of positive reinforcement and encouragement to boost students' confidence, so I support them and celebrate their achievements. Overall, my teaching philosophy is not only about helping children in their studies but also guiding them towards becoming passionate learners. I prioritize making learning enjoyable and relevant for kids, avoiding overwhelming them with excessive work. My classroom is a safe, inclusive space where every child feels valued. By encouraging curiosity and exploration, I aim to instill a lifelong love for learning. My ultimate goal is to empower students to become confident, enthusiastic learners.

Teacher: PRIYA JYOTI HEMBROM Designation: PRIMARY TEACHER

INTRODUCTION

My name is Priya Jyoti Hembrom and I am from Deoghar Jharkhand. I am a primary school teacher currently residing in the state of West Bengal. I am passionate about education and dedicated to nurturing young minds to help them reach their full potential. I believe that education is the key to unlocking a brighter future, and I am committed to making a positive impact in the lives of my students. My hobbies are cooking and dancing.

MY TEACHING PHILOSOPHY

As a primary teacher, my teaching philosophy revolves around fostering a nurturing and inclusive learning environment where every child feels valued, respected, and empowered to reach their full potential. I believe in fostering a love for learning through hands-on activities, interactive lessons, and engaging experiences that cater to diverse learning styles in my students. I believe in creating a safe space where students are encouraged to explore, question, and learn through hands-on experiences and meaningful interactions I strive to instill critical thinking, creativity, and empathy in my students, preparing them to become lifelong learners and responsible global citizens. Ultimately, my goal is to inspire a sense of curiosity and a passion for knowledge that extends beyond the classroom.

KENDRIYA VIDYALAYA NO. 2 KANCHRAPARA

Teacher: Prince Kumar

Designation: PRT

INTRODUCTION

My name is Prince Kumar. I belong to Chamba (Himachal Pradesh). I have completed my D.El.Ed from Gyan Jyoti Institute of Education. I joined KVS in the year 2023 as PRT. I joined KV 2 Kanchrapara on 29 December 2023.

MY TEACHING PHILOSOPHY

My teaching philosophy is centered on creating an inclusive and engaging learning environment where each child feels valued, supported, and empowered to reach their full potential. I believe that every child is unique and brings their own set of strengths, interests, and learning style to the classroom. As a primary teacher, it is my role to celebrate and cumulate these individual differences while providing a safe and welcoming space for all students to learn and grow. My goal is to instill in my students a sense of confidence, resilience, and a growth mindset that will empower them to face challenges, embrace opportunities, and become lifelong learners
