

KENDRIYA VIDYALAYA LUMDING

School Library

The school has a modern library equipped with thousands of books. It has many digital books stored in CD/DVD. It has the latest e-Granthalaya 3.0 cloud library software hosted by NIC. The school library is operated and managed with the help of this software. It is a fully air-conditioned spacious room which provides a pleasant atmosphere for reading and maintaining concentration. Fifty students can sit and study at a time.

The school library is equipped with computers and projectors with screens to show any documentary or presentation. Various workshops are also organized in the library from time to time.

A dedicated blog has been created by the school librarian to access the library facilities anywhere. The link to this blog is given below:
