

PM Shri Kendriya Vidyalaya Sector 2 RK Puram New Delhi
Bala Initiative Primary Section, Shift 2

The Mathematical garden of the Vidyalaya is an excellent source of learning shapes. Students may develop the concept of different shapes in class1 and 2 and can estimate length and breadth by measuring with scale or handspan also. It's a boon for tactile learners.

Taking students round the school to show the statue of Kavi guru Rabindra Nath Tagore before teaching his poem creates an environment for learning. It infuces curiosity among the young minds to know more about the poet.

Paintings on stairs is an excellent way where students get to see the prints everyday while going up and down, the visual learners learn in this way. Its an excellent way to teach children tables, proverbs, sentence constuction. Here seeing is learning.

Making the classroom print rich is an excellent way to teach and learn about food and animals. Here children enact, and wall itself becomes a resource. Spelling are always correct as they see the words on the wall everyday.

Hindi words concept is reinforced by Bala. Where children see the words while playing too in the classrooms and never make mistakes again.
