

LANGUAGE LAB

- ✓ It is a comprehensive e-learning Solution which offers a blended learning process to the students.
- ✓ It is graded as per the proficiency levels and stresses upon the four essential skills of a language: Listen, Speak, Read and Write.
- ✓ These four skills of LSRW (Listen, Speak, Read and Write) when combined together, fetch high-quality results quickly.
- ✓ In a language lab, students do not play a passive role, they listen to, and/or watch, multimedia materials in which native speakers are talking in authentic contexts.
- ✓ They record themselves and listen to themselves speaking the target language and compare themselves with the original material.
- ✓ Finally they can converse with their fellow students in pairs or in groups using the target language.
- ✓ Students try harder and are more open to try new things in a lab than in a classroom.
- ✓ All Language teachers teaching Hindi, English and Sanskrit have created their id and password.
- ✓ Each teacher takes the class once in a week to the lab.
- ✓ The software installed helps them to develop their speaking and listening skills in Hindi, English and Sanskrit.
