

FROM THE PRINCIPAL DESK

Childhood is like a garden — just as there are numerous plants and trees in a garden adorned with beautiful flowers that inspire smiles, childhood too is full of cheerfulness, playfulness, new learnings, sound sleep, and innocence.

At Kendriya Vidyalaya No. 2, NTPC Korba, the primary section provides ample opportunities for children in academics, co-curricular activities, Saturday Funday, and CMP programmes. These are activity-based and offer each child joyful and meaningful learning experiences. I am very happy that our school's primary section is publishing the CMP Newsletter.
