

BALVATIKA

Balvatika or the Children's garden holds a special place in our educational system. It's a place where young minds bloom, where creativity flourishes, and where the seeds of knowledge are sown. Balvatika acts as a bridge between informal early childhood education and formal schooling.

As part of the visionary National Education Policy (NEP) 2020, the Kendriya Vidyalaya Sangathan (KVS) has introduced an innovative early childhood education initiative known as "Bal Vatika." This program, designed to align with the principles of the NEP, focuses on nurturing the holistic development of young learners, laying the foundation for a lifetime of curiosity and knowledge.

In our PM Shri Kendriya Vidyalaya, Balvatika serves as the foundation of a child's educational journey from session 2023-24. It provides a supporting environment where children can learn through play, exploration and interaction. Here, they develop their cognitive, social, emotional and physical skills in a holistic manner. Balvatika is about encouraging a love for learning, through various activities like storytelling, art and craft, music and outdoor play, children learn to express themselves, think critically and collaborate with others. These experiences lay the groundwork for a lifelong passion for knowledge and a sense of curiosity about the world around them.
