

PM SHRI KENDRIYA VIDYALAYA KATHUA

A REPORT ON ICT

(Under PM SHRI School Scheme)

Information and Communications Technology (ICT) can impact student learning when teachers are digitally literate and understand how to integrate it into curriculum. Schools use a diverse set of ICT tools to communicate, create, disseminate, store, and manage information.

PM SHRI Kendriya Vidyalaya Kathua has fully furnished Computer labs. Both primary and secondary computer labs are fitted with wooden cabinets for a capacity of 25 computers in each lab. Both the lab has internet connectivity.

The use of ICT in education enhances collaboration and communication. Online forums, video conferencing, and virtual classrooms enable students to connect with peers and educators from around the globe. Teachers also benefit from ICT integration in education. Digital tools and platforms streamline administrative tasks, allowing educators to focus more on the core of teaching and individualized instruction.

E-classroom is a form of online learning, offering various educational programs in an online form. This multimedia classroom technology provides a unique learning experience. It uses various educational platforms and communication tools to simplify the process.

- Teachers can make use of different ICT tools like computers, laptops etc, to make conceptual comprehension easier for students.
- It aids them in implementing a variety of strategies in the classroom environment to improve learning outcomes.
- They can effectively present ideas to the students using ICT and leave a long-lasting impact on them.
