

REPORT ON THE WORKING OF ATL LAB

ATL Lab was started in PM SHRI Kendriya Vidyalaya Kathua in 2021 under the able leadership of our worthy Principal Sh. Gurnam Singh. Since then our children have used this lab to satisfy their curiosity regarding various concepts related to science

Our students have learned coding ,decoding preparation of working projects in ATL lab. Mr. Shivam has helped children to completing their projects throughout the year. This has helped a lot to inculcate a feeling of investigation of scientific principles involved and to use them and they come out with some good science projects which got recognition at regional level.

The glimpses of work being done in ATL lab is as under.
