## BUILDING & BALA INITIATIVES

Building as Learning Aid (BALA) is about developing the school's entire physical environment as a learning aid. BALA is an innovative concept towards qualitative improvement in education, through developing child friendly ,Learning and fun based physical environment building in school infrastructure At the core, it is about maximizing the educational 'value' of a built space. It is based on 'how children learn'. This concept was originally developed by Vinyas, Centre for Architectural Research & Design with support from UNICEF. KVS has decided adopt the BALA concept for its Vidyalayas.
