FROM THE PRINCIPAL'S DESK

This Newsletter perfectly reflects the rich array of academic and co-curricular activities driven by the tireless efforts of our primary section students and teachers. It provides wings to the vivid imagination of our tiny tots and serves as a vibrant stage for their latent talents. I extend my heartiest appreciation to the newsletter committee and wish the students grand success in all future scholastic pursuits.

MORNING ASSEMBLY : A COMMUNITY'S PURE DEVOTION

START YOUR DAY RIGHT: INSIDE LOOK AT OUR DAILY GATHERING

Our daily gathering serves as the foundational cornerstone of the school day. Designed to instill unity, shared ethos, and regular discipline, the morning assembly brings together students and educators in a collective spirit of devotion. The sessions begin with traditional school prayers, national patriotic songs, and a unified pledge, followed by student-led updates including historical news, modern knowledge updates, and daily motivational thoughts. This structure nurtures deep confidence, reinforces leadership qualities, and allows young learners to confidently express themselves while fostering communal harmony right at the start of the academic day.

अभिविन्यास कार्यक्रम ORIENTATION PROGRAM

Welcoming new cohorts and their families into our collaborative academic culture, the school hosted a structured Orientation Program. Faculty leaders shared insights regarding experimental pedagogical frameworks, supportive rules, developmental milestones, and continuous student assessments. Parents gained absolute transparency into collaborative practices, foundational safety pillars, and active learning dynamics, cementing a progressive, productive partnership between homes and school corridors.

विद्याप्रवेश VIDYAPRAVESH

Specially curated for our youngest entrants, the 'Vidyapravesh' initiative bridges early childhood care and formal schooling framework. Through interactive, play-based pedagogical strategies, children are gently acclimated to their newly expanded peer circles and routine schedules. The initial weeks focus on building robust socio-emotional comfort, expanding fundamental linguistic curiosity, and establishing physical dexterity, ensuring every child steps into their classrooms with joyful anticipation and structural ease.

कक्षाकक्ष गतिविधियां

CLASS ROOM ACTIVITIES

Dynamic academic environments form the core of daily instruction, where textbooks transform into vibrant, hands-on learning experiences. Pupils participate actively in experimental models, architectural shape analysis, and contextual language drills. By encouraging real-time group collaboration and peer assessments, students transition from passive recipients of instruction to curious, creative problem solvers who thoroughly master multi-dimensional concepts.

कक्षा पुरस्कार

CLASSROOM AWARD

Recognizing persistent academic diligence, behavioral refinement, and unique talents, our periodic Classroom Awards drive an inspiring culture of excellence. Celebrated recognitions such as the 'Super Handwriting Award' and the 'Exemplary Learner Badge' honor individual progress. These benchmarks celebrate holistic development, inspire healthy competitive environments, and motivate students to consistently elevate their creative output.

एफ एल एन क्रियाएं FLN ACTIVITIES

Aligning directly with nationwide National Education Goals, FLN frameworks focus deeply on establishing robust reading proficiency and fundamental numerical clarity. Utilizing vibrant interactive geometric tools, tactile counting aids, and creative flashcard games, teachers convert abstract elements into tangible solutions. These rigorous exercises firmly cultivate mental mathematical speed, clear comprehensive reading abilities, and precise articulation at the primary school level.

जल संरक्षण पखवाड़ा

JAL SANRAKSHAN PAKHWADA

Fostering deeply rooted environmental mindfulness, the multi-week 'Jal Sanrakshan Pakhwada' engaged the entire school community in vital discussions on water resource sustainability. Through creative poster design contests, impactful community rallies, and live rainwater harvesting demonstrations, students researched modern water cycles and localized issues. This targeted awareness campaign inspired young advocates to build proactive conservation habits within their personal households and shared neighborhoods.

पर्यावरण दिवस ENVIRONMENT DAY

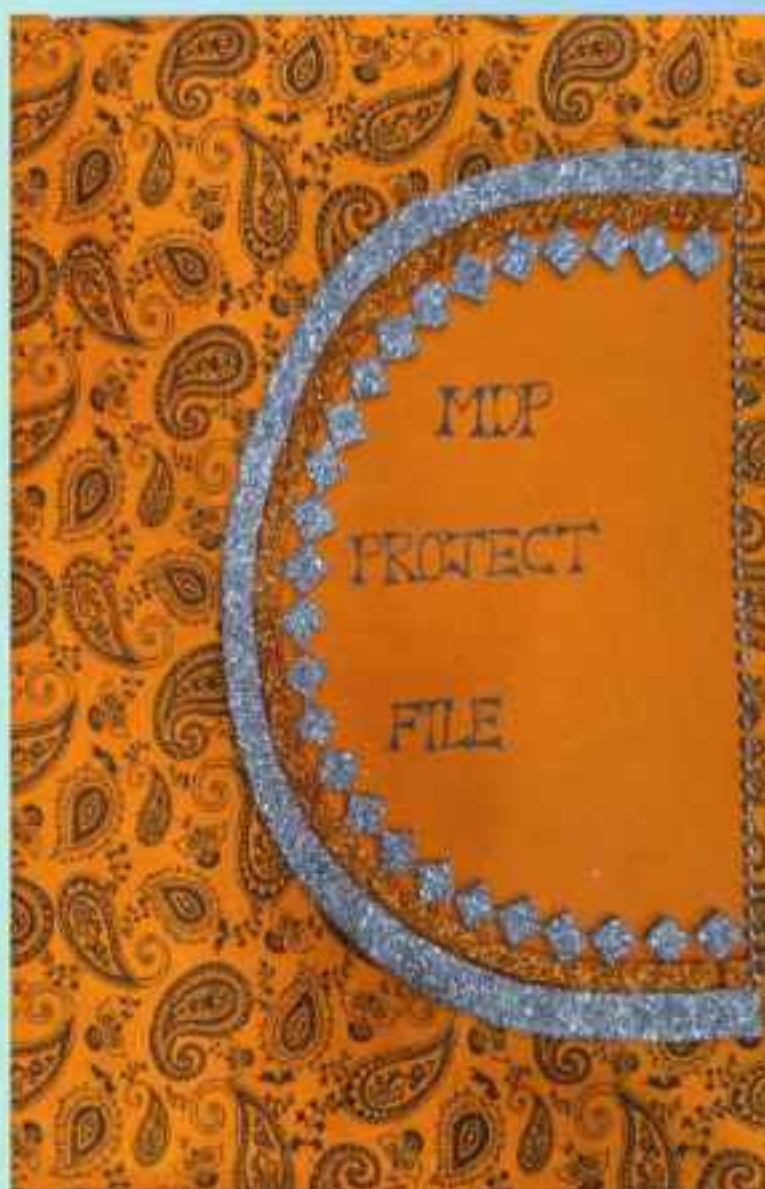

World Environment Day transformed our campus into a thriving hub of ecological preservation and natural exploration. Students engaged in structured sapling plantation campaigns, botanical identification walks, and green waste segregation workshops. These hands-on green activities instilled a deep sense of responsibility towards maintaining local biodiversity, reducing chemical consumption, and driving long-term global climate recovery frameworks.

बहुविषयक परियोजना कार्य

MDP

Breaking away from traditional linear subjects, the Multidisciplinary Project (MDP) framework challenges students to integrate diverse fields around unified core themes—such as 'Home, Sweet Home'. By merging architectural design, creative writing, regional geography, and historical research, teams created detailed portfolios, structured structural modules, and analytical reports. This project-based methodology deepens long-term synthesis and gives students practical problem-solving skills.

1

MINDFULNESS ASSEMBLY

Juniors focusing on mindfulness.

2

CRAFTING JOY

Displaying handmade creations.

3

CREATIVE STRUCTURES

Constructing imaginative houses.

4

LEARNING WITH SHAPES

Understanding geometry.

4

LEARNING WITH SHAPES

Interactive science.

5

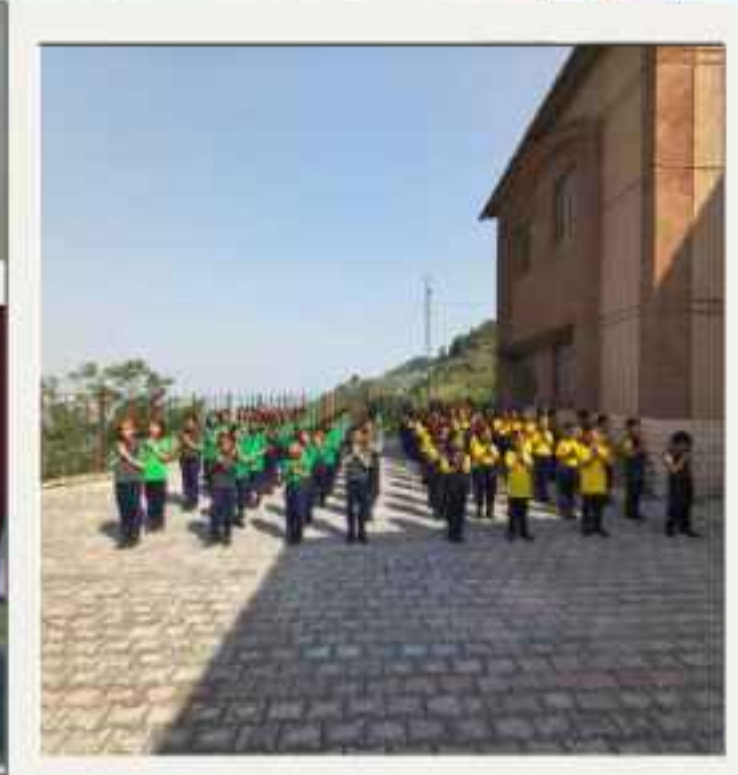

SPECTACLE LEARNING

Advanced structural design.14
