# CMP NEWS LETTER

SESSION-2023-24

**Principal  
Shri. R.K. Verma**

### **From the Principal's desk**

*Every child is like a seed which has the potential to grow if it is nourished with love and care under the right guidance. In the current challenging times, it is essential that children should not only excel in academics but should also develop courtesy, discipline, smart personality, social sensitivity and be imbued with the traditional values and culture of our country. Childhood is the best time to lay the foundation of the core values essential for the overall development of the future citizens of tomorrow. So, I as the head of the institution as well as the mentor of my teachers motivate them to plan their teaching in the light of NEP 2020 and NIPPUN Bharat guidelines. My focus is also on inculcating the 21st century skills from the very beginning of the life of my children. My best wishes to all the primary teachers for the upcoming Newsletter.*

**2023-24**

# पढाई भी पोषण भी

As we know that our country as well as the whole world is celebrating the current year as the INTERNATIONAL YEAR OF MILLETS as millets are very rich source of PROTEIN, FIBER, ENERGY and many more things that our body need to grow properly so as the instruction of the KENDRIYA VIDYALAYA SANGATHAN We celebrated the POSHAN WEEK in September month. Under this programme the students were made aware of the proper diet and about millets. after this student were motivated to present their knowledge with the help of after drawings and our children took part in this initiative fervently under the banner of PADHAI BHI POSHAN BHI.

## ***RAKHI MAKING COMPETITION***

**"I love to walk through snow, to climb mountains, to smell the fresh air and I love to dream about flying. ..."**

In the month of August we organised the Rakhi making competition as this is one of the best ways of hands-on activities which children enjoy very much. After the competition we portrayed these and all the teachers including principal sir visit to motivate our students

## TOYS FAIR-2023

WE

**There is ample evidence that toy play is a very important aspect of child development. Children of all ages enjoy playing with toys and the different roles they play in their fantasy and make-believe games, but toys are more than simple playthings. Studies have shown that children learn through every part of their body, and many toys offer hands on learning opportunities that can instil basic skills that will benefit them for the rest of their lives.**

**Toys also nurture a child's cognitive development during childhood years. Toys can stimulate their concentration levels and improve their attention span and memory. Board games, drawing boards and musical instruments are pivotal to childhood development. The toys are key to their future autonomy**

**As we know that children are very inquisitive in nature they are born creative so we as a facilitator just need to give them a platform where they can express or nurture their creativity so that toy making is a very wonderful activity which we organise in our Vidyalaya time to time and we are very happy to see the enthusiasm of our children in participating this. Toy making is also directly associated with experiential learning and hands on**

activity which the NEP 2020 and NIPUN Bharat mission emphasis upon very much.

## THUMB PAINTING

Under The Vidya Pravesh activities which have been made by the kendriya Vidyalaya Sangathan for the student of grade 1 thumb impression or thumb painting activity is the channel to inculcate the fine motor activities among children. Children have lot of memories so they are asked to make their favourite cartoon characters ,different diagrams, shapes or anything that they want to portrait .
