## FROM THE PRINCIPAL DESK

**Mr. Shalendra Sharma**  
Principal(Gr II)

Education is all round development of a man. Kendriya Vidyalaya Sangathan is a pace setting institution both in curricular and co-curricular activities. Kendriya Vidyalaya takes care to develop the personality of the students in every respect. The students are taught that all power is within them. They can do anything. Nothing is impossible. No obstacle is insurmountable. All the power you need to accomplish or to achieve your goal is within you.

You are to toil hard. There is no substitution for hard work. Success comes before work only in the dictionary. There is always a battle to be fought before the victory is won. So to achieve your goal; you have to put in hard and imaginative toil. You have to do adequate preparation and able execution.

Never accept defeat as final. There is no defeat so long as you give in. Keep trying. Keep doing efforts. Never lose heart. Ultimately you will win. What appears impossible today will become a reality tomorrow with your determination, dedication and application. You are the master of your destiny and captain of your soul. You can decide your destiny and fashion your fate with your own efforts, industry and hard work.

# BEST OUT OF WASTE

## REDUCE

Reducing is about using fewer resources in the first place.

It involves using less energy, water, and materials to produce goods and services.

By reducing our consumption, we can conserve resources and reduce waste.

Examples of reducing include using energy-efficient appliances and turning off lights when not in use.

## REUSE

Reusing is about finding new uses for items that would otherwise be thrown away.

It involves extending the life of products and materials by using them again and again.

By reusing, we can reduce waste and conserve resources.

Examples of reusing include using cloth bags instead of plastic bags and donating old clothes to charity.

## RECYCLE

Recycling is about converting waste into new products.

It involves collecting, sorting, and processing materials so they can be used again.

By recycling, we can reduce the amount of waste that goes to landfills and conserve resources.

Examples of recycling include recycling paper, plastic, and glass and composting food waste.

# SAY NO TO DRUGS

On the occasion of the International Day against Drug Abuse, Mrs. Priya, TGT Sanskrit organized an awareness program for the students of the school. The program aimed to educate the students about the harmful effects of drug abuse and promote a healthy lifestyle. Mrs. Priya emphasized the need to stay away from drugs and urged the students to take responsibility for their own well-being.

The program was concluded by the school principal, Shri. Shailendra Sharmah, who appreciated Mrs. Priya's efforts in organizing the event. He also spoke about the importance of staying away from drugs and encouraged the students to make healthy choices. The event was a success and helped raise awareness about drug abuse among the students.

# Fun Day
