MATHS

Q1.

Cross Math

	+		×		= 20
+		×		-	
	×	8	×		= 48
-		×		+	
	×		-		= 38

= = =

0 80 10

By: David Shaar

Complete the grid, so that each row and each column has the correct result shown at the end of the row or column.

All the numbers from 1 to 9 must be used, without repetition of any number.

Calculations must be done from left to right and from top to bottom.

Hint: Start with multiplication and division always, because it is easier to start with, there aren't that much possibilities as addition and subtraction.

Use the number given to help you start, and be sure to check again your solution using your mathematical skills, because sometimes, there may be mistakes.

2Q. Four people have balances:

P: ₹4,99,999

Q: ₹5,00,100

R: ₹4,98,750

S: ₹5,01,000

Questions:

- A. Who has the amount closest to ₹5,00,000?
- B. Who has more than ₹5,00,000 but less than ₹5,01,000?
- C. Arrange balances in ascending order.
- D. Find the difference between highest and lowest balance.
