PM SHRI KENDRIYA VIDYALAYA,

AIR FORCE STATION, BIDAR - 585401

INTRODUCTION

- PMSHRI stands as a beacon of hope, acknowledging that children are the cornerstone of our society's progress. By providing targeted resources, we aspire to create an environment where every child can thrive and realize their full potential.
- This initiative is not merely about financial aid; it's a commitment to building a brighter tomorrow, one child at a time. Through PMSHRI, we envision a nation where every child has access to quality education, adequate healthcare, and the nurturing care they deserve.
- This presentation showcases this noble endeavour of **PM SHRI KV AFS BIDAR** as we pave the way for a future where every child can shine like a precious gem - a true "Shri" of our nation.

VISION

- Vision: To create a future where every child in our nation thrives, empowered with the resources and opportunities for holistic development, ensuring they grow into compassionate, capable, and resilient individuals who contribute positively to society.

MISION

- PMSHri is committed to providing comprehensive support for the holistic development of children across the nation. Through targeted allocation of special funds, our mission is to:
- Ensure Access to Quality Education: Invest in educational infrastructure, teacher training, and innovative learning methodologies to guarantee that every child receives a quality education tailored to their needs.
- Enhance Healthcare Services: Improve access to healthcare facilities, preventive care, and medical services to safeguard the physical and mental well-being of children, ensuring they grow up healthy and strong.
- Foster Social and Emotional Development: Create supportive environments that nurture children's social and emotional growth, fostering resilience, empathy, and positive relationships essential for their overall well-being.
- Encourage Extracurricular Engagement: Facilitate participation in extracurricular activities, sports, arts, and cultural pursuits to encourage creativity, teamwork, and personal growth beyond the classroom.
- Empower Parents and Communities: Collaborate with parents, caregivers, and community stakeholders to create a supportive ecosystem that prioritizes children's development and fosters a sense of belonging and collective responsibility.
- Through these concerted efforts, PMSHRI aims to transform the lives of children, ensuring they have the opportunities and support needed to flourish and become the leaders of tomorrow.

My name is Aditi Singh and I'm studying in 12th standard. I would like to take the opportunity to speak about the new facilities implemented in our school as per PM Shri, and how these facilities have impacted, not only our academic lifestyles, but also our hygiene. Before, I have noticed that many of my female friends and classmates have found it difficult to deal with their periods during those times of the months. They always took leaves so they did not have to deal with the discomfort that they face in school. But with the provision of sanitary pad dispensers, I've noticed that it has become much easier for us girls to manage our situations. Moreover, there used to be clogging or blockage in the toilets before, due to poor disposal of sanitary pads. But now with the incinerator, these problems have also been solved. A few months ago, we had a workshop organised by Lady Doctor spoke to us about the alternate solutions or options we can adopt in our lives that make our lives a easier during these hard times. In conclusion, I would say that these facilities have obviously made our school lives much better. Afterall, in the end, it is always true that cleanliness is next to godliness. Thank you.

Aditi Singh

I am Aniket Kumar Singh for PM SHRI KV AFS BIDAR We've recently been introduced into this PM SHRI scheme and it has given us great benefits. For example, our front lawn and internal garden has been revamped and made much better than its former shell, which was quite displeasing, we've gotten a new awards cabinet in our front lobby and new water coolers with that refreshingly chill water: Most importantly this scheme has given us some great technology, including an interactive touch panel desktop for our AEP room and 11 new, extremely fast Computers in our computer labs. We've had an influx of better sports equipment ranging from chess sets to cricket equipments and footballs, moreover we've gotten more budget for our janitorial needs due to which the cleanliness of our schools has certainly increased. There are now composting cylinders as well which allow even the youngest kids to witness the power of microorganisms. Our front stage has also been made fancier with a nice backdrop and everything has just been more beautiful. This is it, this is PM SHRI Kendriya Vidyalaya AFS Bidar.
