*Education is the foundation of man on which the future of man is built. Kendriya Vidyalaya Sangathan, with its continuous efforts towards education, is making a meaningful effort to ignite the flame of knowledge in India. All my senior officers, colleagues, teachers and employees of this organization are making meaningful efforts to take education to every student with their full dedication.*

*I wish for the bright future of all the students who are building their future in the learning environment of Kendriya Vidyalaya Sangathan.*

## *School Principal Message*

To my mind an educational institute is not just about bricks, mortar and concrete, but about building character, enriching minds and about enriching experiences that lasts a lifetime. Life is not a set of instructions but is a series of experiences and learning process.

KENDRIYA VIDYALAYA is always under experiences. At KENDRIYA VIDYALAYA, we believe in learning by capturing set of experiences and enable one to explore new realms of wisdom. The unified diversity element among student projects the integrated spectrum of prototype India as most of the students belong to the states of differing language and local culture gather with single minded focus to succeed in life
