

PM SHRI KENDRIYA VIDYALAYA TENGA VALLEY

BIOLOGY LAB

PM SHRI Kendriya Vidyalaya Tenga Valley has a biology laboratory equipped with different types of lab equipments such as optical microscope, compound microscope, simple microscope for the students to focus and study slides. The idea is to enable hands on learning by the students, “Learning by doing” being the motto of our bio lab. The laboratory provides the students with all sorts of facilities, ranging from specimens to human skeletal model, models of different physiological system, charts, other models prepared by our students etc. The laboratory is quite spacious and is creatively decorated by the students. The area of laboratory is 20×17 sqare ft and 20 students can perform experiment at a time. We have fire extinguishers in case of an emergency. Through experiments, students are able to gain hands on experience and appreciate various concepts of biology.
