CROSSWORD PUZZLES FOR EVS CLASS V

Myself Manisha Bhesaniya I am a PRT at PM Shri Kendriya Vidyalaya Sabarmati. I am teaching EVS in Class V. As we all know EVS is a very interesting subject but when it comes to remembering long-long spellings sometime children find it difficult. There enters my teaching learning material related to Toy Based Pedagogy for the EVS which is a crossword. We all love to fill crossword and same is with students, they also like to fill crossword so I have made crossword puzzles chapter wise for the EVS class V.

In this crossword I have asked them the objective questions of that particular chapter and gave them clues to solve it. Students try to fill the crossword during the small recess, lunch break and even in games period. They come to the EVS corner where the crossword is kept, they read the clues and try to solve it. If they don't know the full spelling the crossword will not be completed so by that way they learn the full spellings of that particular word. After completing the chapter, I will solve the crossword by myself and will explain them. By this activity they learn by doing and playing. I have made this crossword on a chart paper and then I have prepared a cover for it so that I can change the cross word whenever I need and it is covered with plastic sheet so it is completely reusable so each and every child try, write and erase whatever they want to write. This activity improved interest for learning the spelling in my students and sometimes it happens that if they don't know the spellings fully then also they try to complete it and in the way of trying they found the correct spelling of the words as they are interconnected horizontally and vertically. This is the fun way to teach.

Crossword Example

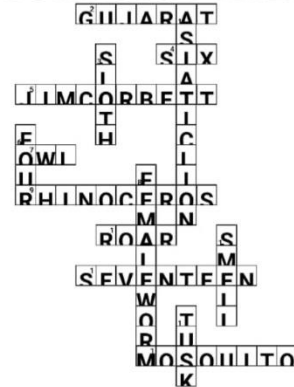

Down

1. Gir National Park is mainly for this animal (11)
3. It is considered as the most lazy animal (5)
