REPORT ON INSPIRE MANAK 2026 REGISTRATION

Kendriya Vidyalaya Sayli, Silvassa, undertook the process of identifying and registering innovative student ideas under the **INSPIRE MANAK Scheme 2026** with the objective of encouraging scientific creativity, innovation, and problem-solving abilities among students.

As a preliminary step, the Vidyalaya organized a **School-Level Idea Submission Competition** to provide students with an opportunity to present their original and innovative ideas. For this purpose, a dedicated idea submission box was placed in the school library, where students could deposit their ideas freely and conveniently.

On **04 September 2026**, the idea submission box was opened, and a total of **32 innovative ideas** submitted by students were collected for evaluation. The submitted ideas were carefully examined and assessed on the basis of their originality, innovative potential, relevance to real-life problems, and scope for scientific and technological application.

After a thorough evaluation, **five promising ideas were shortlisted** for participation in the INSPIRE MANAK Scheme 2026. The details of the selected students, along with their respective innovative ideas, were subsequently entered and submitted online through the official INSPIRE MANAK Portal for further consideration in the scheme.

The details of selected students are as follows:

1. NIKHIL PRABHUDEEN VISHWAKARMA – Class VII
2. MAADHAVEE KUMARI – Class VII
3. ANUSHKA SANTOSH SHINDE -Class XI
4. NANDITA MOHAPATRA – Class XI
5. SAMRUDDHI SUNIL MALI – Class VII

This initiative provided students with a valuable platform to express their creativity, develop scientific thinking, and explore innovative solutions to practical problems. The school-level competition also helped identify budding innovators and encouraged wider student participation in science and technology-related activities.

The successful online registration of five students marks an important step towards promoting a culture of innovation and scientific inquiry in the Vidyalaya. The Vidyalaya appreciates the enthusiastic participation of all students who submitted their ideas and acknowledges the efforts of the teachers involved in guiding and facilitating the process.

Conclusion: Through this initiative, Kendriya Vidyalaya Sayli, Silvassa, reaffirmed its commitment to nurturing young innovators and encouraging students to develop original ideas that may contribute to society through science, technology, and innovation.
