SUMMER VACATION HOLIDAY HOMEWORK

CLASS 4

📚 English

· The "Postcard" Project: Write a short paragraph (5–8 sentences) about your favorite day of the holiday. Describe what you saw, ate, and how you felt.

· Reading Log: Read one short storybook or three news articles. Write down five new words you discovered and find their meanings in a dictionary.

· Handwriting: Practice your best cursive or print by copying a poem about summer or nature.

· Shape Hunt: Find and draw three examples of different angles or geometric shapes in your house (e.g., a rectangular door, a circular clock, or the right angle of a book corner).

· Table Master: Practice multiplication tables from 2 to 15 for 10 minutes every morning.

🧪 TWAU (EVS)

· Kitchen Science: Observe how water changes state. With an adult's help, watch water boil (liquid to gas) or freeze an ice tray (liquid to solid). Draw the process.

· Leaf Scrapbook: Collect 4–5 different types of fallen leaves from a park or garden. Paste them in a notebook and try to identify which tree they belong to based on their shape.
