- . MDP और LD को पूरा करें।
- (परीक्षा पुनरावृत्ति): आगामी परीक्षा के लिए पूरे पाठ्यक्रम को दोहराएँ।

Class: VI Subject: Science

Chapter 1: A Journey Through States of Water

Write the three states of water with examples.

Explain evaporation and condensation with one example each.

Draw and label the water cycle.

Activity: Keep a cold water bottle outside the refrigerator. Observe the water droplets on its outer surface and write the reason.

Chapter 2: Separation of Substances

Write the meaning of any four methods of separation with examples.

Explain filtration and evaporation.

Activity: Take a mixture of sand and water. Separate it using filtration and record your observations.

Prepare a table of five mixtures and their suitable methods of separation.

Instructions:

Complete the work neatly in your Science notebook.

Draw labelled diagrams wherever required.

Write activity observations in your own words.

Class: VI Subject: English

Subject Teacher: Kalpana Tiwari Section A: Reading Skills

Q1. Read the passage carefully and answer the questions.

Trees are one of the greatest gifts of nature. They provide us with oxygen, fruits, flowers, wood and shade. They are home to many birds and animals. Trees also help in reducing air pollution and keeping the environment cool. Unfortunately, many trees are cut down to make roads, buildings and furniture. We should plant more trees and protect the forests to make our planet green and healthy.

Answer the following questions:

What do trees provide us with?

How do trees help the environment?

Why are many trees cut down?

What should we do to protect our planet?

Find a word from the passage that means 'a place where an animal lives'.

Section B: Writing Skills

Q2. Paragraph Writing

Write a paragraph of 100–120 words on any ONE of the following topics:

The Importance of Trees

My Favourite Festival
