

# **PM SHRI KV 1 AFS Halwara**

## **SCIENCE LAB**

A science lab offers various opportunities for students to think creatively, develop techniques, and explore their interests. Therefore, a science lab is essential for students to learn and explain scientific facts and theories

In our vidyalaya we have science lab which contains apparatus related to physics, chemistry and biology for conduct of practicals. Apart from that to provide enriching learning experience to students, Kendriya Vidyalaya Sangathan has provided our Vidyalaya with Equipments of Modernization of Science labs .

Under PM SHRI scheme various new Science DIY kits have been procured to give hands on experience to children. Emphasizing on child centric approach. Children are encouraged to perform different activities and experiments.
